Long Beach, Ca
Dec 1, 2005

Angela Reynolds,

I'm surprised more has it been discussed about the black soot fallout that we who live close to the airport have to endure. Every day I can wipe the patio table and off comes the black soot. We, our children, grandchildren and everyone else has to daily breath this fallout from the airplanes. Does anyone think this is healthy? I'm against <u>any</u> expansion + <u>all</u> expansion at the airport.
