For: Mayor and Members of the City Council
Subject: **Fire Apparatus Coverage Plans During Station Remodels**

On December 22, 2015, the City Council awarded a contract to World Wide Construction to improve workplace privacy by constructing separate restrooms and dormitories at four Long Beach Fire Department Fire Stations.

Construction is expected to begin at Fire Station 4 by the end of this month, and will be followed, in order, by Fire Station 2, Fire Station 22, and Fire Station 10. Fire Stations 2 and 22 may be worked on concurrently. It is anticipated that the improvements at each station will take 40 work days to complete, with a one-week break between each station. The total length of the project is ten months. The project is being coordinated by the Department of Public Works, with a budget of approximately \$3.1 million.

The following temporary apparatus movements will occur while remodeling takes place at each Fire Station:

- Fire Station 4 (411 Loma Ave)
Engine 4 housed at Fire Station 8 (5365 East 2nd St)
Rescue 8 housed at Fire Station 14 (5200 Eliot St)
- Fire Stations 2 (1645 East 3rd St) and Fire Station 22 (6340 Atherton Ave)
Engine 2 housed at Fire Station 8 (5365 East 2nd St)
Rescue 8 remains housed at Fire Station 14 (5200 Eliot St)
- Fire Station 10 (1417 Peterson Ave)
Engine 10 housed at Fire Station 17 (2241 Argonne Ave)
Rescue 10 housed at Fire Station 4 (411 Loma Ave)

If you have any questions regarding this information, please contact me at 570-2505.
