DESIGN INTENT
Implement a range of creative solutions to the problem of deteriorating alleys in neighborhoods throughout the corridor

Where automobile and service access is required, rehabilitate paving only to the degree necessary to accommodate it. Where motorized vehicle access can be eliminated, explore securing the right of way areas and creating shared green space for residents to use and potentially maintain

Enhance the permeability of the spaces, while acting on opportunities to green neighborhoods, expand the urban forest, and turn currently degraded areas into assets

APPLICATION
Degraded alleys throughout the corridor
