I am pleased to share 'A Decade of Affordable Housing,' a celebration piece commemorating several of the City's most significant affordable housing accomplishments over the past decade. Beyond the impressive developments and programs showcased in this book, the featured projects have had a real, long-lasting impact on enhancing the quality of life of some of the most vulnerable residents and families in our neighborhoods, and promoting a more livable and sustainable City for those who live, work, and visit Long Beach.

'A Decade of Affordable Housing' honors the diligent efforts of the Mayor and City Council; The Long Beach Community Investment Company (LBCIC), formerly known as The Long Beach Housing Development Company (LBHDC); numerous developers and service providers; City commissions and City staff who have dedicated their careers to the advancement of equitable housing in Long Beach. The tireless work of these groups and individuals will continue to serve as a blueprint for which the City persists with a renewed commitment to ensuring housing opportunities for all segments of the community.

As a supplement to the book, a companion timeline piece has been developed for wide distribution. The 'A Decade of Affordable Housing' timeline showcases several of the City's new affordable housing developments completed over the past decade, and highlights other achievements pertaining to the production and preservation of affordable housing.
