Subject: **Planning Commission 2018 In Review**

The attached copy of the Planning Commission 2018 In Review showcases significant developments throughout the City, highlights important planning initiatives and implementation efforts, and features the accomplishments of the Planning Commission (Commission) and Planning Bureau staff. With lots of new construction activity and developments underway, our City continues to grow and thrive. The Review visually commemorates the Commission's actions on many of these high-quality, innovative, and sustainable projects that will provide a diversity of opportunities for the community to best live, work, and enjoy Long Beach.

The Commission provides an invaluable service to the City, offering leadership and insight on all matters affecting development in Long Beach, and safeguarding the quality of life and interests of residents and visitors. Each year, the Commission and staff work with the Mayor and City Council, various City departments, applicants, design professionals, neighborhood groups, and business owners on an array of projects. These efforts all help to create more safe and attractive neighborhoods and contribute to the livability and economic viability of the City.

If you would like additional copies of the report, or for further information regarding the Commission, please contact me at (562) 570-6428. The report is also available electronically at: <http://www.lbds.info/civica/filebank/blobdload.asp?BlobID=7486>
