**From:** Patrick H. West, City Manager *PW*  
**Subject:** Encampments and Debris

---

I wanted to take the opportunity to highlight the fantastic work all of our teams did this week to deal with a couple of homeless encampments and associated debris.

**Encampment North of Residence Inn and adjacent to L.A. River**

This large encampment was located in an out-of-the-way place, which allowed it to grow to a large size. Our teams spent a great deal of energy working to place people into services and remove the encampment. Attached are photos of staff from Police, Fire, Parks, Recreation and Marine, Health & Human Services, and the Clean Team doing great work.

**12<sup>th</sup> Street and Long Beach Boulevard**

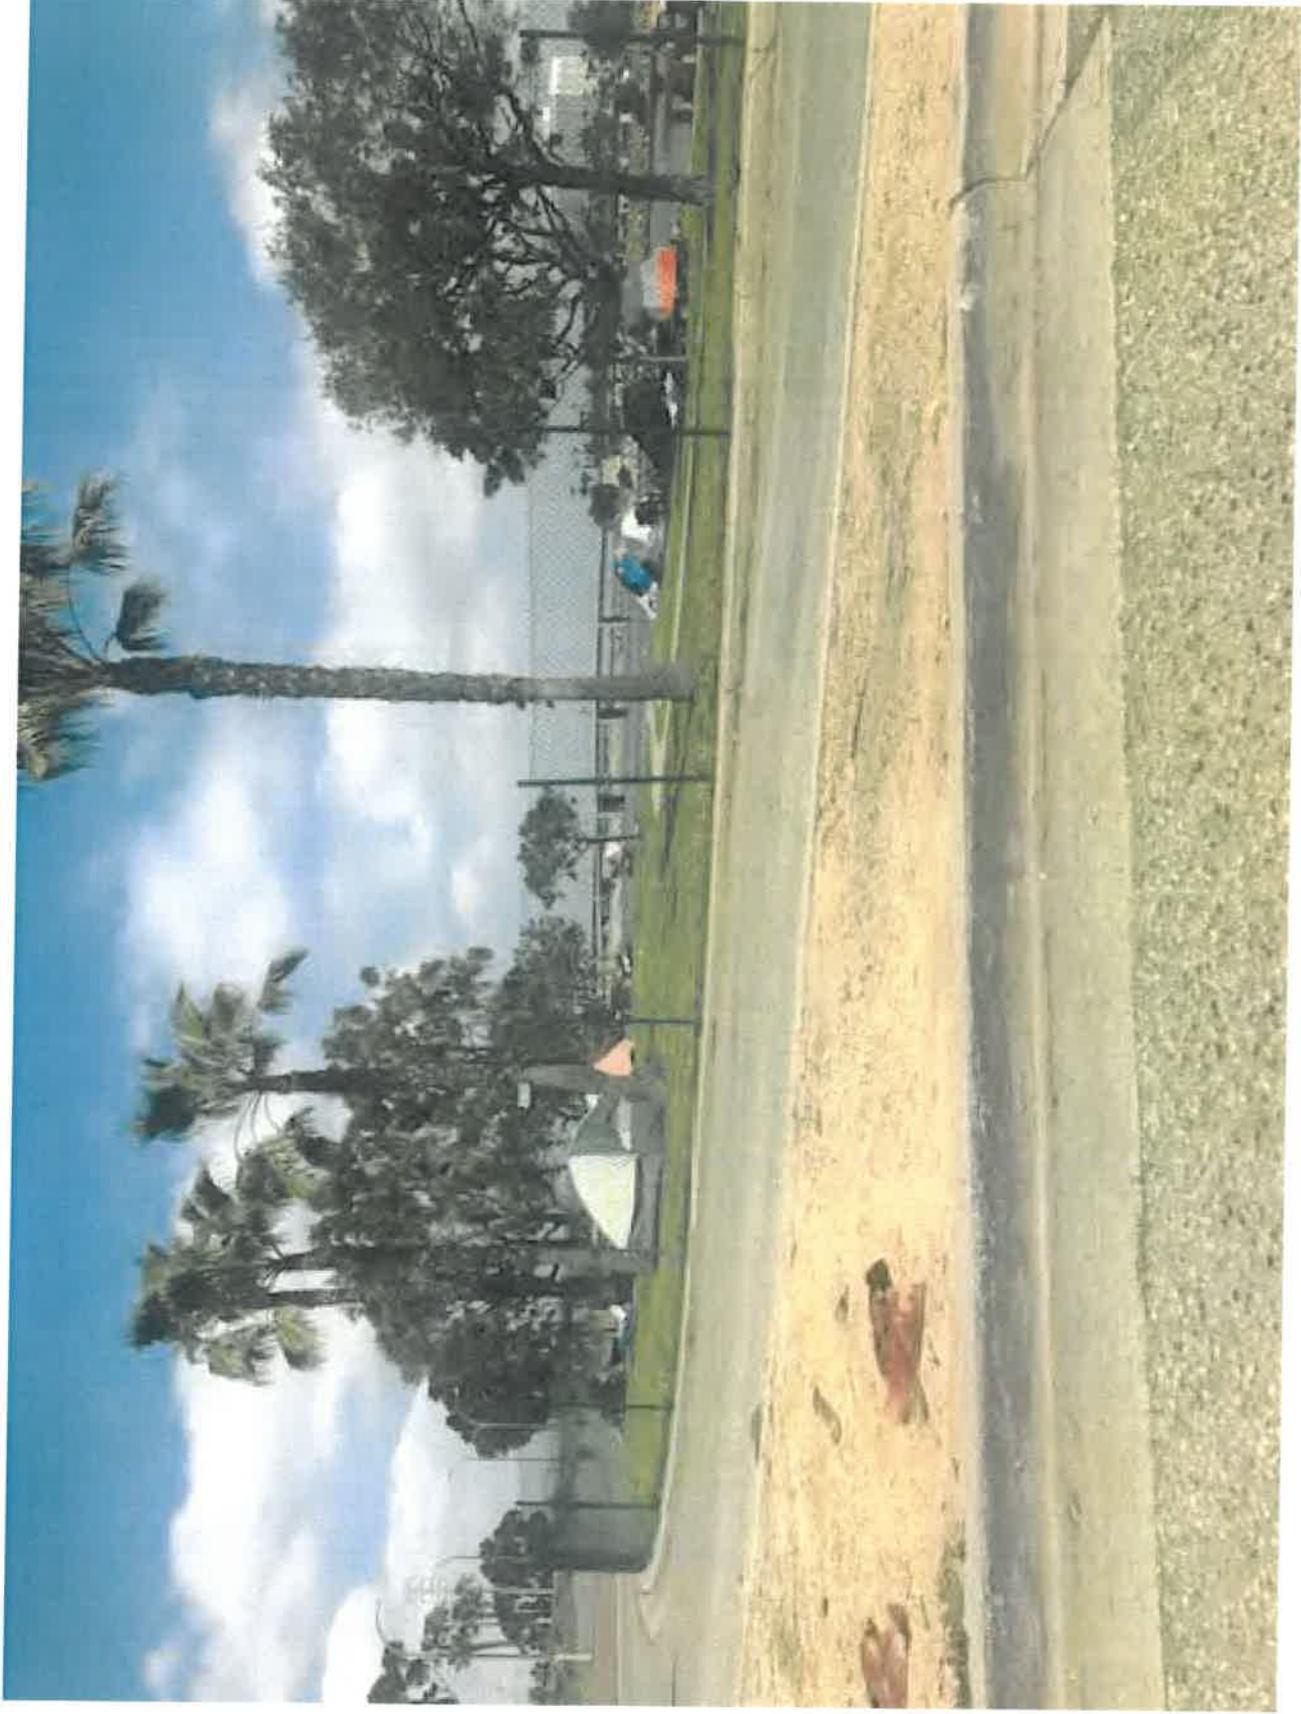

This area frequented by homeless was becoming a significant concern for the surrounding community. Again, our teams tackled the encampment, making a significant difference in our ability to keep our streets safe and clean. You can see our police officers were willing to jump right in and lend a helping hand.

Kudos to everyone involved, especially Officers Sepulveda and Mesun for their great work!
