## **STEP 4: ORAL INTERVIEWS**

Following the orientation presentation, candidates will be scheduled for a Chief's Oral Interview and a Background Assessment Interview (BAI).

The Chief's Oral Interview panel consists of one Long Beach Police Officer and one community member. Several structured questions will be posed to each applicant. The questions are designed to evaluate the applicant's knowledge of relevant topics and assess their communication skills. The better prepared applicant will have a good working knowledge of the City of Long Beach, its rich diversity, the Police Department, and the many events and attractions that make Long Beach great.

The BAI is conducted by Background Investigators. The investigators review the applicant's [\*\*\*Personal History Statement \(PHS\)\*\*\*](#) as well as all other required documents prior to the interview. Applicants are given an opportunity to explain areas of concern and it is expected that applicants will be candid and honest with their investigators during this interview and at all stages of the selection process. All information gathered during the BAI will be checked and verified during other stages of the background investigation. Dishonesty is grounds for immediate disqualification.

***NOTE: All applicants are encouraged to order and retain their medical records associated with their current medical conditions and procedures, physical symptoms, limitations, restrictions, and the use of medications and drugs, immediately following their successful completion of this step.***
