CSULB Parking Impacts in the Press

This past week, there was more than the usual press coverage of CSULB parking impacts in the 4th council district. Starting on Monday, the Press Telegram covered the root causes, and that was followed by coverage of the removal of the temporary lot in front of the Walter Pyramid. Proposition H Impact Report Released

City Auditor, Laura Doud, released the City Auditor's Proposition H (Prop H) Impact Report which shows how Prop H has resulted in \$33 million for public safety over the last 10 years. In 2006, her office found that the City had a low oil production tax rate and recommended that it be increased to bring in more revenue to support public safety. This led to the initiative, Prop H, which passed with 70% of voters in favor. Since its inception in 2007, Prop H has continued to raise an average of \$3.3 million dollars of

revenue every year for our Police and Fire Departments. You can read more about her report [here](#).

Purposeful Aging Los Angeles Survey

After much anticipation, the Purposeful Aging Los Angeles Survey (PALA) survey is now available for completion! Purposeful Aging Los Angeles (PALA) seeks to prepare the Los Angeles region for a rapidly aging population through an innovative, sustained initiative that unites public and private leadership and strategies. Mayor Robert Garcia, on behalf of the City of Long Beach, joined the PALA Initiative in February and committed to the goals of the Initiative, including the overarching goal to make the City of Long Beach age-friendly for all who live, work and play in our City.

The results of this survey will be used by both the County and the City of Long Beach to develop an Age-Friendly Plan for our region. The survey is open to anyone 18+ living in the City or County of Los Angeles. The data collected from this survey will serve as baseline data for the City's new Office of Aging and will be used to help determine the state of older adults living and working in

Long Beach and to assist the Office in identifying the steps needed in order to make Long Beach an age-friendly City for all.

The survey is available at this [link](#).

The 105 acres that make up the Nature Center grounds provide sanctuary for animals and plant life. Two miles of dirt trails and a ¼ mile paved trail wind around two lakes, a stream and forested areas. At the entrance, cross over the wooden bridge that spans the lake and you'll find yourself on a small island that houses the Visitor Center, containing educational displays, art gallery and a small gift shop offering environmentally themed books and gifts.
