1 RESOLUTION NO. WD-1391

2  
3 A RESOLUTION OF THE CITY OF LONG BEACH  
4 BOARD OF WATER COMMISSIONERS ADOPTING THE  
5 ANNUAL BUDGET FOR THE LONG BEACH WATER  
6 DEPARTMENT FOR THE FISCAL YEAR 2018-2019

7  
8 The Board of Water Commissioners of the City of Long Beach resolves as  
9 follows:

10 Section 1. That the annual department budget of the Long Beach Water  
11 Department for the fiscal year 2018-2019, as follows, be and the same is hereby adopted:

12 WATER

13	Estimated Fund Balance 10-1-2018	\$20,851,038
14	Estimated Revenues	<u>\$112,456,890</u>
15	Total Estimated Resources	\$133,307,928
16	Estimated Expenditures	<u>\$120,873,319</u>
17	Estimated Fund Balance 9-30-2019	\$12,434,609

18  
19 SEWER

20	Estimated Fund Balance 10-1-2018	\$9,374,935
21	Estimated Revenues	<u>\$24,095,417</u>
22	Total Estimated Resources	\$33,470,352
23	Estimated Expenditures	<u>\$26,862,813</u>
24	Estimated Fund Balance 9-30-2019	\$6,607,539

25 The most up to date current year estimated expenditures and revenues are  
26 included in the estimated fund balances and were provided in detail at a Finance  
27 Committee briefing held on May 17, 2018. Detailed schedules and other data which  
28 accompany the budget are provided for information purposes only and are not intended to

1 limit expenditures.

2 Section 2. The City's Fiscal Year 2018-2019 budget development  
3 calendar requires submission of proposed budgets to the Mayor by July 1, 2018. To  
4 accommodate the City's schedule, the Water Department must accelerate the adoption of  
5 its Fiscal Year 2018-2019 budget. This requires the Water Department to estimate certain  
6 City budget components including employee fringe benefits and City support charges.  
7 These charges are included in the above budget numbers as estimated amounts.

8 The Water Department anticipates the final City amounts will be delivered to  
9 the Water Department in July. After the Water Department receives the actual amounts  
10 the Budget of the Long Beach Water Department will need to be revised to reflect these  
11 actual amounts. Therefore, the Board of Water Commissioners authorizes the General  
12 Manager of the Long Beach Water Department to adjust the adopted Water Fund and  
13 Sewer Fund budgeted expenditures for employee fringe benefits and City support charges  
14 by an amount not to exceed five percent (5.0%) of the total of such charges included in the  
15 adopted budgets to reflect any increases in City charges above the estimated amounts  
16 budgeted for fiscal year 2018-2019. The General Manager shall make the necessary  
17 adjustments prior to submittal of the Long Beach Water Department budget to the City.

18 Section 3. The Secretary of the Board of Water Commissioners shall  
19 certify to the passage of this resolution, and cause copies of the same to be filed with the  
20 City Council, the City Auditor and the City Manager.

27                  Section 4. By Resolution the Board of Water Commissioners has  
28 established a Water Conservation and Water Supply Shortage Plan (the Plan). Pursuant

1 to the Plan, the Board may declare that a Stage 1, Stage 2 or Stage 3 Water Supply  
2 Shortage exists, in its sole discretion. Upon such declaration, the Board may increase  
3 water rates, by an amount necessary, as determined by the Board but not to exceed the  
4 following percentages:

5 Stage 1 Water Supply Shortage Rate. Water rates may be increased by an amount  
6 not to exceed 10% above the pre-shortage rate.

14 meter and fittings in accordance with the "Rules, Regulations and Charges Governing  
15 Potable Water, Reclaimed Water, Sewer Service and the Emergency Water Conservation  
16 Plan" of the Water Department.

17 Section 6.

18 A. The service charge for private fire protection service shall be in  
19 accordance with the following table:

27 16 inch	\$43.892

1                   The service charges in this Section shall only include water  
2 used for fire extinguishing purposes and a reasonable amount of water used  
3 for testing the fire line.

4                   B.       Whenever the Water Department finds that water through a  
5 private fire protection service is being used for purposes other than fire  
6 extinguishing or testing the fire line, the General Manager may make a  
7 determination of the quantity of water used, the quantitative charges for that  
8 water, and the service charges to be applied. The General Manager's  
9 determination shall be final. In addition, if water through a private fire  
10 protection service is used for purposes other than fire extinguishing or testing  
11 the fire line, the Water Department may discontinue the private fire protection  
12 service or may install a domestic or fire flow meter, at either the customer's  
13 or its expense as the General Manager may determine, and thereafter the  
14 service shall be classified as regular service and billed at the rates applicable  
15 thereto.

16                   Section 7.    The primary purpose of fire hydrants is extinguishing fires and  
17 they shall be opened and used only by the Water Department or the Long Beach Fire  
18 Department, or such other persons as may be authorized to do so by the General Manager  
19 or the Chief of the Fire Department. Where fire hydrants are installed and maintained by  
20 the Water Department, there shall be no standby charge made to the Fire Department.

21                   Section 8.

22                   A.       For all sewer service where the sewer lateral connects to a  
23 main line maintained by the Water Department, or the sewer lateral is located  
24 in the public right-of-way, the charge for sewer service shall consist of both a  
25 daily sewer rate and a volumetric sewer rate.

26                   B.       The daily sewer rate shall be in accordance with the following  
27 table:

28    ///

	<u>Size of Service</u>	<u>Daily Sewer Rate</u>
1		
2	5/8 or 3/4 inch	\$0.225
3	1 inch	\$0.333
4	1-1/2 inch	\$0.874
5	2 inch	\$1.507
6	3 inch	\$3.511
7	4 inch	\$5.079
8	6 inch	\$14.150
9	8 inch	\$14.999
10	10 inch	\$23.218
11	12 inch	\$29.284
12	16 inch	\$43.069
13		
14		

15 C. The volumetric sewer rate shall be \$0.357 per 100 cubic feet of  
16 water furnished where water service size is 5/8 inches or larger. The  
17 volumetric sewer rate shall not be applicable to fire services.

18 Industrial customers may apply for separately metered sewer  
19 discharge in accordance with the "Rules, Regulations and Charges  
20 Governing Potable Water, Reclaimed Water, Sewer Service, and the Water  
21 Conservation and Water Supply Shortage Plan" of the Water Department.

22 D. For volumetric sewer rates, there are the following customer  
23 classifications: single family residential; duplex residential; multi-family  
24 residential; City Departments; commercial; and industrial.

25 Volumetric sewer rates for single family residential, duplex  
26 residential and multi-family residential shall be computed based on the  
27 average of actual potable water use during the winter billing periods. The  
28 winter billing periods used will be determined by the meter reading schedule

1 for the account. The actual winter usage is divided by the number of winter  
2 days to obtain an average volume. The average volume will be the base  
3 volume on which the volumetric sewer rate is charged for the next twelve  
4 month period beginning with May's billing periods. Each year, the average  
5 volume will be recalculated for the succeeding twelve-month period.  
6 Exceptions to the above calculation methodology will use the average volume  
7 for the water service size in which the customer falls as the average volume  
8 or a calculation using available usage information for the account. For those  
9 residential customers with no previous history of use during the winter billing  
10 periods, the average volume for the water service size in which the customer  
11 falls will be used.

12 E. For all users of the sewer system that do not receive a water  
13 bill from the City but where the user's sewer lateral connects to a main line  
14 maintained by the Water Department, or where the sewer lateral is located in  
15 the public right-of-way, the charge for sewer service shall consist of both a  
16 daily sewer rate and a volumetric sewer rate. The daily sewer rate shall be  
17 as provided in Subsection 8(B) of this Resolution. For these customers, the  
18 volumetric sewer rate shall be based on the average volume for the  
19 customer's water service size.

20 F. The City shall collect from all developments and all  
21 developments shall be required to pay a capacity charge of One Hundred  
22 and Eight Dollars and Thirty Nine Cents (\$108.39) per equivalent fixture unit  
23 at the time application for sewer service is made, but in no event later than  
24 the time that the City issues a sewer permit for connection to the City sewage  
25 system, as set forth in the Long Beach Municipal Code and the "Rules,  
26 Regulations and Charges Governing Potable Water, Reclaimed Water,  
27 Sewer Service and the Emergency Water Conservation Plan" of the Water  
28 Department.

1           G.     Upon receipt of an application for sewer service, the City's  
2 Department of Development Services (through the Plan Checker for  
3 Plumbing) shall calculate the amount of the capacity charge by: 1)  
4 determining if this resolution applies to the development; and 2) if this  
5 resolution does not apply, indicating same on the application for sewer  
6 service and the reason this resolution does not apply, and processing the  
7 application in accordance with ordinances, resolutions, and regulations; or 3)  
8 if this resolution does apply, determining the number of equivalent fixture  
9 units in the development and multiplying that number by the capacity charge  
10 per equivalent fixture unit.

11           H.     The sewer capacity charge shall be subject to annual  
12 adjustment, effective October 1 of each year, to reflect the increase of the  
13 Construction Cost Index ("CCI") for Los Angeles as published in the  
14 "Engineering News-Record". The increase shall be calculated each  
15 September by dividing the CCI published in August of the current calendar  
16 year by the CCI published in August of the preceding calendar year; that  
17 figure multiplied by the sewer capacity charge in effect in October shall be  
18 the new sewer capacity charge. No adjustment shall be made to reflect a  
19 decrease in the CCI.

20           I.     Funds derived from capacity charges shall be placed in the  
21 Sewer Fund and shall be used only for the operation, construction,  
22 reconstruction, acquisition, or maintenance of the City sewage system.

23           J.     Anyone who has paid a capacity charge may apply for a full or  
24 partial refund if within one year after payment: 1) the applicant has not been  
25 permitted to connect to the City sewage system; or 2) the development on  
26 which the capacity charge was calculated has been modified pursuant to  
27 applicable City ordinances, resolutions, or regulations, resulting from a  
28 reduction in the number of equivalent fixture units. Refund applications shall

1 be made on forms provided by the City and shall contain a declaration under  
2 oath of those facts, along with relevant documentary evidence, which qualify  
3 the applicant for the refund. In no event shall a refund exceed ninety percent  
4 (90%) of the amount of the capacity charge actually paid.

5 K. Anyone subject to a capacity charge who constructs, deposits  
6 money into escrow with the City for the construction of, participates in an  
7 assessment district for the construction of, or otherwise contributes money or  
8 improvements to the City for the operation, construction, reconstruction,  
9 acquisition, or maintenance of the City sewage system shall be eligible for a  
10 credit for such contribution against the capacity charge otherwise due. The  
11 amount of the credit shall be the value of the contribution as determined by  
12 the City provided, however, that the credit shall not exceed ninety percent  
13 (90%) of the amount of the capacity charge. Applications for said credit shall  
14 be made on forms provided by the City and shall be submitted at or before  
15 the time of application for sewer service. The application shall contain a  
16 declaration under oath of those facts, along with relevant documentary  
17 evidence, which qualify the applicant for the credit.

18 L. The capacity charge and requirements pertaining thereto shall  
19 not affect in any way the permissible use of property, density of development,  
20 design and improvement standards, public improvement requirements, or  
21 any other aspect of the development of land or construction of buildings  
22 which may be imposed by the City pursuant to the Long Beach Municipal

25 M. The capacity charge is a charge on development that reflects a  
26 development's proportionate share of the present depreciated value of the

4 rates, and charges including but not limited to sewer standby or immediate  
5 availability charges and capital facilities charges for services or facilities other  
6 than as a proportionate share of the present depreciated value of the existing  
7 City sewer system. In no event shall an applicant for sewer service be  
8 obligated to pay fees, rates, or charges in excess of those calculated

11 development.

20 Commissioners shall prescribe another billing interval. Insofar as practical,  
21 meters shall be read at regular intervals for the preparation of regular bills,  
22 and meters shall be read as required for the preparation of opening, closing,

28 3.68 of the Long Beach Municipal Code as of the date of this resolution does

1 not need to file a separate application for exemption hereunder.

2 Section 11. Whenever the correctness of any bill for water or sewer service
