

**One item a month.
One step closer to being prepared.**

November's Featured Item: Flashlight

As we begin to near the end of the year, we hope that you have been following along and have almost finished putting together your emergency kits. We know many people rely heavily on their phones and have applications for everything. In the event of a power outage, you won't be able to charge your cell phones, which means all those applications are useless. Instead of relying on your phone to light your way, having a flashlight is a much more dependable source of light. This month's item is a flashlight.

Here are some things to consider when purchasing flashlights:

- Make sure to include extra batteries for the flashlights
- Consider having alternative sources of light such as candles, lantern, or light sticks
- Consider buying a flashlight for each family member to keep by their bed
- Keep a flashlight at your workplace, as well as in your car
