PLANNING PERMIT PROCESS

- Step 1** **Identify the Permits You Need:** Talk to Planning staff about your project to find out what planning and environmental applications are required.
- Environmental reviews are required for most applications, to comply with the California Environmental Quality Act (CEQA). Many projects require only a Categorical Exemption, which is attached to this application. If a different environmental application is required for your project, Planning staff will provide it to you.
- Step 2** **Calculate the Fees:** Planning application fees can be calculated using the current Fee Schedule, which is included at the end of this application. All fees must be paid at the time of filing. Cash, credit card, personal check or company check are accepted. NO third party checks will be accepted. *The fees are subject to change, so be sure you have the most current Fee Schedule.*
- Step 3** **Prepare Plans:** The specific requirements for the types of plans required are included in the next section of this application on page 7.
- Step 4** **Submit Application and Pay Fees:** Schedule an appointment for submittal of the application by calling the zoning information line at (562) 570-6194. Fees must be paid at the time of filing. *Applications cannot be submitted without an appointment.*
- Step 5** **Make Corrections (if necessary):** Over the next several weeks after your submittal, Planning staff will contact you to make any necessary corrections to your plans or project to bring it into compliance with Zoning code. Your responses to staff's corrections will greatly affect how soon your project can be scheduled for a public hearing. Failure to make the requested corrections may delay scheduling of a hearing, and may negatively affect staff's recommendation on your project to the hearing body.
- Step 6** **Post Notice of Public Hearing Sign:** If your project requires a public hearing, Planning staff will provide you with a laminated 30" x 40" *Notice of Public Hearing* poster no later than 14 days before the hearing. You must post this sign immediately. Please see the posting instructions on page 10. Failure to post the sign properly will delay the hearing.
- Step 7** **Attend Hearing:** If your project requires a public hearing, you or your representative should plan to attend. Your testimony at the hearing will be necessary for the project's approval. *If you or someone representing you fails to attend the hearing, the item will be continued, and you will be assessed a continuance fee (see Fee Schedule) before your project may return to hearing.*
- Step 8** **Appeal Period:** If your project is approved, the appeal period (usually 10 days) must expire with no appeals by a third party before you can apply for building permits to carry out your project. If your project is denied, you have 10 days to appeal the denial to a higher body.

I. GENERAL FILING REQUIREMENTS

Application Type	Sets of Plans	Material Boards and Color Elevations	Site Photos
Planning Commission			
<ul style="list-style-type: none"> • Conditional Use Permit • Subdivision Map • Condo Conversion • Site Plan Review (Planning Commission approval) 	2 standard size 15 reduced size	Required for Site Plan Review only	17 sets
Zoning Administrator			
<ul style="list-style-type: none"> • Administrative Use Permit • Local Coastal Development Permit • Standards Variance • Lot Line Adjustment/Lot Merger 	2 standard size 2 reduced size	No	4 sets
Staff Site Plan Review			
<ul style="list-style-type: none"> • Site Plan Review (staff-level approval) • Conceptual Site Plan Review 	1 standard size 3 reduced size	Yes	4 sets
<ul style="list-style-type: none"> • Pre-Application • Creative Sign Permit • Sign Program 	1 standard size 3 reduced size	No	4 sets
<ul style="list-style-type: none"> • Wireless Telecommunications Sites 	<i>Please see next page on Wireless Telecom submittal requirements</i>		
Other Application Types			
<ul style="list-style-type: none"> • Certificate of Compliance • Zoning or General Plan Amendment • Classification of Use • And other special applications 	These other applications have special filing requirements. Contact Planning staff to determine filing requirements.		

- Standard-size plans are 24" x 36". Reduced-size plans must be reproduced at a usable scale; for example, if the full-size plans are scaled at 1/8"=1', then reduced-size plans would be scaled at 1/16"=1'. Scale must be noted on all plan sets.
- Electronic copies of reduced-size plans must be made available upon request. Electronic plans must be in Adobe PDF format and must be delivered via email or other means when requested by Planning staff.
- New versions of plans must be provided each time corrections are made. Before printing, consult Planning staff to determine how many copies are needed after corrections—fewer sets may be required.
- If your project requires City Council approval, or proceeds to City Council or Planning Commission on appeal, additional sets of plans will be required. Planning staff will advise you when to submit the additional copies.

II. REQUIREMENTS FOR PLANS

Standard-size plans are 24" x 36". Reduced-size plans are no more than half the size of standard-size plans. The most important attribute of reduced-size plans is that they are reproduced at a usable scale; for example, if the full-size plans are scaled at 1/8"=1', then reduced-size plans would be scaled at 1/16"=1'. Scale must be noted on all plan sets. If 11" x 17" is used, scale must be correct. All Plans must be folded to a size no larger than 9"x12".

All plans must be drawn to scale no less than 1/8" = 1'. For any site that is one (1) acre or more in size, a smaller scale may be used, although the scale should be approved by a planner. Plans using a smaller scale must include a graphics scale.

Standard size plans are to measure 24" x 36", although larger plans may be permitted for a larger site (i.e., over one acre). All standard sets of plans shall be folded no larger than 9" x 12" when submitted. Reduced size plans are to be a smaller version of the full-size plans. 11" x 17" is a common size, but it is most important that the reduced sets are made at a usable scale.

A. Site Plan

A site plan depicts the project site property boundaries, the location of buildings on the property, and the building setbacks from the property lines, as well as parking, drainage, landscaping, adjacent public right-of-way, and other site features.

The site plan submitted with your application must be legible, to scale, and include:

- Lot lines and dimensions;
- Footprint of existing and proposed buildings on the site;
- Distances between buildings;
- All setback lines properly measured;
- A North Arrow;
- Existing and proposed easements;
- Parking areas and loading facilities, including all parking spaces, access to parking spaces and circulation patterns;
- Location of all trash containers and how they will be accessed; and
- All existing trees on the site and parkway.

The following must be tabulated and shown on the Site Plan:

- Lot size;
- Lot coverage;
- Building area (by floor);
- Floor area ratio;
- Parking by size and type;
- Location of building footprints on adjoining and abutting lots noting height and number of stories on the elevations (this can be done on a separate plot plan, if necessary); and
- All contiguous properties, streets, and alleys showing centerline, lane striping, curb lines, street widths, right-of-way lines, circulation patterns and street names (this can be done on a separate plot plan, if necessary).

B. Floor Plans

A floor plan shows the size, use and location of the interior spaces in a building.

The floor plan submitted with your application must be legible, to scale, and should include the items listed below. Floor plans required for submittal may be typical if several units are included.

- Specific room arrangements;
- Room sizes;
- Window sizes and types;
- Location of all doors;
- Uses for all rooms;
- Distance from the windows to the property lines; and *
- Distance to other windows on the same floor. *

*Required only for residential projects of five or more units. A separate floor plan showing only window spacing may be required, but only if specifically requested (LBMC 21.31.240).

C. Elevations

Elevations show the exterior sides of a building.

The elevations submitted with your application must be legible and to scale. Measure height from **top of curb** to roof peak, midpoint of sloped roof, and from eaves. Show the following:

- All sides of the proposed building(s), labeled according to which direction the building faces (i.e., north face, south face, etc.);
- Adjoining buildings (side or rear) in outline form;
- Primary, secondary and tertiary building massing;
- Original and finished grade changes;
- A clear identification of all building materials and textures to be used on the facades; and
- Curb grade (top of curb), which differs from “natural grade” or “finish grade”.

For all Site Plan Review applications, full color elevation drawings are required. See “Materials Boards” on page 9 below.

D. Sections

Sections are drawings showing the project, or certain aspects of the project, as if made by a geometric plane cutting through it perpendicular to the ground.

Section drawings are only required for certain types of buildings: multi-story buildings, projects with internal courtyards, and semi-subterranean or subterranean parking. Consult a planner to determine if you must submit section drawings. If required, they must be legible, to scale and should include:

- Sections through the length and width of the building;
- Sections through interior courtyards and courtyard planters;
- Original, adjacent and finished grade;
- Building height; and
- All finished floor elevations.

E. Roof Plan

A roof plan shows the architectural details of the roofs of all buildings on the site.

A roof plan is required for all projects requiring Site Plan Review. The roof plan must be legible, to scale and should include:

- Proposed rooftop equipment locations;
- Proposed screening devices, if any; and
- Location of any rooftop deck, pool or spa areas.

F. Landscaping Plan

A landscaping plan shows proposed landscaping (trees, shrubs, and groundcover) with building footprints and parking areas shown as well.

General landscaping plans are required for all projects, although the landscaping plan may be combined with the site plan if all components remain legible. For larger projects, a detailed landscaping plan may be required. All landscaping plans must show, at a minimum:

- The location of the planting area; and
- Number and general types of plants to be used.

G. Sign Plan

A sign plan shows the types and locations for primary and secondary on-site signs.

A sign plan is required for any retail or office commercial development that requires Site Plan Review. All proposed signs must be compatible with the project's architecture through the use of similar shapes, colors and materials. The submitted sign plan must be legible, to scale and should include:

- The location of the signs;
- Signage design features including height, width, colors, materials, and other features;
- Compatibility with building architecture; and
- Area of each sign in square feet.
- "Can" or "cabinet" signs are strongly discouraged, and in most cases prohibited. Channel letters should be used instead.

H. Materials Boards

Materials Boards are required for all Site Plan Review applications, except wireless telecommunications sites. Materials Boards should include the following:

- Colored elevations with all materials noted and materials legend;
- Actual material samples of each exterior material to be used in the building design (including stucco, paint colors, etc.), fully labeled to correspond to the elevations and legend.
- Samples of window and door frames
- Small samples of all exterior elements including railings, canopies, lights, window glass, hardware, etc.
- Please make sure that all material samples are mounted securely on the board and will not detach if the board is bumped, dropped, or sent in the mail.**
- Please do not submit full-size samples of windows, railings, lights, or other hardware.**

III. SIGN POSTING REQUIREMENTS

A notice poster must be posted at the subject site for any project requiring a public hearing. The City will provide applicants with a 30" x 40" Notice of Public Hearing sign poster. It is the applicant's responsibility to post this sign in accordance with the following requirements or the hearing will be postponed to a later scheduled hearing so posting requirements can be met.

- A. **Time:** The sign must be posted at least 14 days prior to the date of the public hearing. *Failure to post the sign 14 days prior to the hearing will result in a delay of the hearing.*
- B. **Mounting:** The sign provided to the applicant must be mounted on a foam-core board or other stiff display board, if not affixed to the wall of a building.
- C. **Location:** The sign must be posted at the front of the subject site facing the public street. The sign must be at least 1 foot inside the property line, but not more than 10 feet.
- D. **Height:** The sign must be mounted so the top is 6 feet above ground level. Stakes must be used to mount the sign if it is not affixed to the wall of a building.
- E. **Photographic Verification:** The applicant must submit at least two photographs of the sign to verify that it is posted properly. Photographs must include a camera-generated date stamp. *Failure to submit photographs will result in a delay of the hearing.*
- F. **Affidavit:** The applicant also must return the Certificate of Posting provided by the City, certifying that all posting requirements are met. *Failure to return this affidavit will result in a delay of the hearing.*
- G. **Maintenance:** It is the applicant's responsibility to maintain the sign in good condition. If the sign falls down, is vandalized, or is damaged by wind and weather, the applicant must *immediately* repair and correct it if possible. If it is damaged beyond usability or lost, the applicant must *immediately* request a new sign from the City and post it as soon as the City provides it to the applicant. *It is the applicant's responsibility to monitor the condition of the sign every day before the public hearing.*
- H. **Duration:** The sign must remain posted during the 10-day appeal period after the hearing, or 10 days plus 21 days in the Coastal Zone. *Failure to keep the sign posted as required may result in permit invalidation.* The sign must then be removed no later than 7 days after receipt of the Notice of Final Action.
- I. **Multiple Frontages:** If the site has more than one street frontage, additional signs will be provided to the applicant and must be posted on the secondary frontage(s) in the same manner.

IV. RADIUS MAP, MAILING LABELS, MAILING LIST

Effective for all applications submitted after August 13, 2009, the City now provides all radius maps, mailing labels, and mailing lists for each project. The applicant is not required to submit these items.

PLANNING COMMISSION

2015 Estimated Filing and Hearing Schedule

Planning Commission meetings are held the first and third Thursday of each month. Planning staff will contact the applicant to schedule a hearing date after the internal Staff Site Plan Review Committee meeting. An application will not be deemed complete until all filing requirements have been met.

Date of Complete Application (Thursday)	Internal Site Plan Review Meeting (Wednesday)
10/16/14	11/26/14
10/30/14	12/10/14
11/20/14	12/24/14

** Day of the week adjusted due to City Holiday

PLANNING BUREAU FEE SCHEDULE

Fiscal Year 2015 fees are effective October 1, 2014 through September 30, 2015.

All fees are subject to a 9.3% surcharge, unless otherwise noted. 6.0% supports General Plan update costs, and 3.3% goes toward Departmental technology upgrades.

ZONING FEES

	<u>Fee w/o Surcharge</u>	<u>Fee w/ Surcharge</u>
	For Information Only	Fee Charged for Application

Administrative Use Permit (AUP).....	\$4,000.....	\$4,372.00
Conditional Use Permit (CUP)		
• Major CUP	\$8,000.....	\$8,744.00
• Minor CUP	\$5,000.....	\$5,465.00
• Nursery Schools, Day Nurseries, Preschools, Childcare Centers, Daycare Centers and Similar Uses for Daytime Care and Education of a Limited Number of Persons		Fee Exempt
• Expansion of an existing church or shelter (must be in a residential zone or sponsored as a bona fide non-profit exemption)		Fee Exempt
• CUP Exemption (CUPEX) for alcoholic beverage sales	\$1,000.....	\$1,093.00
Standards Variance (SV)		
• New Construction.....	\$5,500.....	\$6,011.50
• Remodel	\$3,500.....	\$3,825.50
• Each Additional Exception	\$50.....	\$54.65
Fence Height Exception through AUP or SV	\$500.....	\$546.50
Annual Zoning Inspection	\$320.....	\$349.76
Fee for Work/Land Use without a permit		Double the permit fee(s)

COASTAL FEES

Local Coastal Development Permit (LCDP) <i>when another Planning permit is required</i>	\$900.....	\$983.70
LCDP <i>when another Planning permit is not required</i>	\$4,400.....	\$4,809.20
