Covina, CA 91723

Re: AB-52 Consultation with the Gabrieleno Band of Mission Indians – Kizh Nation for the Alamos Avenue Road Diet Improvements Project

Dear Mr. Salas:

The City of Long Beach is conducting its AB-52 consultation process for the Alamos Avenue Road Diet Improvements Project. Please consider this letter and preliminary Project information as the initiation of the California Environmental Quality Act, specifically Public Resources Code 21080.3.1 and Chapter 532 Statutes of 2014 (i.e., AB-52). Please respond within 30 days, pursuant to PRC 21080.3.1(d) if you would like to consult on this Project.

PROJECT TITLE: Alamos Avenue Road Diet Improvements Project

PROJECT LOCATION: The project site encompasses the stretch of Alamos Avenue between 7th Street and Ocean Boulevard in the City of Long Beach, California.

PROJECT DESCRIPTION: The proposed project involves a modification to Alamos Avenue between 7th Street and Ocean Boulevard to a two-lane divided roadway with on-street bike lanes that would match the roadway section north of 7th Street. North of 7th Street, Alamos Avenue has been restriped to provide a two-lane, divided roadway, separated by a two-way left-turn, with on-street parking and on-street bike lanes, as well as a buffer to separate bicycle traffic from vehicular traffic. Currently, most of the project site provides two-lanes in each direction separated by a two-way left-turn lane; south of 3rd Street, only one southbound through lane is provided to just past Broadway. Before restriping activities, the project would remove and recycle existing asphalt within the project site and resurface the roadway.

Your comments and concerns are important to the City of Long Beach in moving forward with this Project. If you have any questions or concerns with the Project, please contact me at:
