P. O. Box 393
Covina, CA 91723

Re: AB-52 Consultation with the Gabrieleno Band of Mission Indians – Kizh Nation for the City of Long Beach Houghton Park Community Center Improvements Project

Dear Mr. Salas:

The City of Long Beach is conducting its AB-52 consultation process for the Houghton Park Community Center Improvements Project. Please consider this letter and preliminary Project information as the initiation of the California Environmental Quality Act, specifically Public Resources Code 21080.3.1 and Chapter 532 Statutes of 2014 (i.e., AB-52). Please respond within 30 days, pursuant to PRC 21080.3.1(d) if you would like to consult on this Project.

PROJECT TITLE: Houghton Park Community Center Improvements Project

PROJECT LOCATION: Houghton Park, 6301 Myrtle Avenue, Long Beach, California.

PROJECT DESCRIPTION: The City of Long Beach proposes improvements to the Houghton Park Community Center, including the following major components: (1) demolition of the west wing of the Community Center; (2) construction of a new structure to connect to the existing Community Center on its east end; (3) development of a new courtyard between the new building and an existing building south of the proposed connection; (4) demolition of restrooms and storage areas currently positioned between the parking lot and lobby space to utilize currently unusable lobby space and create a loading/drop-off zone for the parking lot; and (5) a reconfiguration and expansion of the existing parking lot. The objective of the proposed renovations is to provide a safer and more functional recreational area for the North Long Beach community.

The project would include demolition of approximately 5,210 square feet (sf) of building area constructed in 1959 and construction of approximately 6,480 sf of building additions. The parking lot expansion would remove 12 existing parking spaces and a picnic area east of the Community Center and would add 51 new parking spaces, increasing the total parking spaces within the parking lot to 140. The project would also install bicycle parking and concrete seating areas. Construction activities would begin in May 2018 and last approximately 12 months. Soil disturbance on the site would be minimal and any grading activities would be expected to be balanced on-site. A Mitigated Negative Declaration (MND) will be prepared for this project.

Re: AB52 Consultation request for Houghton Park Community Center Improvements Project
Located 6301 Myrtle Ave Long Beach

Dear Craig Chalfant,

Please find this letter as a written request for consultation regarding the above-mentioned project pursuant to Public Resources Code § 21080.3.1, subd. (d). Your project lies within our ancestral tribal territory, meaning belonging to or inherited from, which is a higher degree of kinship than traditional or cultural affiliation. Your project is located within a sensitive area and may cause a substantial adverse change in the significance of our tribal cultural resources. Most often, a records search for our tribal cultural resources will result in a "no records found" for the project area. The Native American Heritage Commission (NAHC), ethnographers, historians, and professional archaeologists can only provide limited information that has been previously documented about California Native Tribes. This is the reason the NAHC will always refer the lead agency to the respective Native American Tribe of the area because the NAHC is only aware of general information and are not the experts on each California Tribe. Our Elder Committee & tribal historians are the experts for our Tribe and are able to provide a more complete history (both written and oral) regarding the location of historic villages, trade routes, cemeteries and sacred/religious sites in the project area. Therefore, to avoid adverse effects to our tribal cultural resources, we would like to consult with you and your staff to provide you with a more complete understanding of the prehistoric use(s) of the project area and the potential risks for causing a substantial adverse change to the significance of our tribal cultural resources.

Consultation appointments are available on Wednesdays and Thursdays at our offices at 910 N. Citrus Ave. Covina, CA 91722 or over the phone. Please call toll free 1-844-390-0787 or email gabrielenoindians@yahoo.com to schedule an appointment.

** Prior to the first consultation with our Tribe, we ask all those individuals participating in the consultation to view a video produced and provided by CalEPA and the NAHC for sensitivity and understanding of AB52. You can view their videos at: <http://calepa.ca.gov/Tribal/Training/> or <http://nahc.ca.gov/2015/12/ab-52-tribal-training/>

Per attached Plan, new compacted fill would be no more than 5 feet below grade.

Let me know if you would like to discuss this or need any additional information.

since you defaulted on our call appt today
lets make this ab 52 tc without the call
your plans document you sent me didnt have any elevations on ground disturbances or
excavations
so send those asap we also again request the to do the monitoring and testing to be done on
site besides that we support the project if we get the suggested language in the mnd -
also please send the other mnd language you said you would send me so we can respond before
it goes public thanks jt
