

MITIGATION MONITORING AND REPORTING PROGRAM

CEQA requires adoption of mitigation monitoring and reporting program (MMRP) for the measures necessary to mitigate or avoid significant effects on the environment (Public Resources Code 21081.6). The mitigation monitoring and reporting program is designed to ensure compliance with adopted mitigation measures during project implementation. For each mitigation measure included in the Weber Metals Large Press Expansion Project Initial Study - Mitigated Negative Declaration, specifications are made herein that identify the action required and the monitoring that must occur. In addition, a responsible agency is identified for verifying compliance with measures contained in the MMRP.

To implement this MMRP, the City of Long Beach will designate a Project Mitigation Monitoring and Reporting Coordinator (“Coordinator”). The coordinator will be responsible for ensuring compliance with the mitigation measures incorporated into the project during project implementation.

The following table will be used as the coordinator’s checklist to determine compliance with required mitigation measures.

Weber Metals Large Press Expansion Project
Mitigation Monitoring and Reporting Program

Mitigation Measure	Action Required	When Monitoring to Occur	Responsible Agency or Party	Compliance Verification		
				Initial	Date	Comments
CULTURAL RESOURCES						
CR-1 Resource Recovery Procedures. In the event that archaeological resources are unearthed during Project construction, all earth disturbing work within the vicinity of the find must be temporarily suspended or redirected until an archaeologist has evaluated the nature and significance of the find. After the find has been appropriately mitigated, work in the area may resume. A Native American representative shall be retained to monitor any mitigation work associated with Native American cultural material.	If archaeological resources are discovered all work shall be suspended and an archaeologist brought on to evaluate the find.	During grading and construction.	City of Long Beach			
CR-2 Human Remains Recovery Procedures. If human remains are unearthed, State Health and Safety Code Section 7050.5 requires that no further disturbance shall occur until the County Coroner has made the necessary findings as to the origin and disposition pursuant to the Public Resources Code Section 5097.98. If the remains are determined to be of Native American descent, the coroner has 24 hours to notify the Native American Heritage Commission. Additional surveys will be required if the Project changes to include unsurveyed areas.	If human remains are discovered on the site all work shall be suspended and the County Coroner called out.	During grading and construction	City of Long Beach
