Re: Records Search Results for the Project Proposed at 100 East Ocean Blvd, City of Long Beach

The South Central Coastal Information Center received your records search request for the project area referenced above, located on the Long Beach, CA USGS 7.5' quadrangle. The following summary reflects the results of the records search for the project area and a ½-mile radius. The search includes a review of all recorded archaeological and built-environment resources as well as a review of cultural resource reports on file. In addition, the California Points of Historical Interest (SPHI), the California Historical Landmarks (SHL), the California Register of Historical Resources (CAL REG), the National Register of Historic Places (NRHP), and the California State Historic Properties Directory (HPD) listings were reviewed for the above referenced project site and a ¼-mile radius. Due to the sensitive nature of cultural resources, archaeological site locations are not released.

RECORDS SEARCH RESULTS SUMMARY

Archaeological Resources	Within project area: 0 Within project radius: 2
Built-Environment Resources	Within project area: 1 Within project radius: 45
Reports and Studies	Within project area: 5 Within project radius: 16
OHP Historic Properties Directory (HPD)	Within project area: 1 Within project radius: 29
California Points of Historical Interest (SPHI)	Within project area: 0 Within project radius: 0
California Historical Landmarks (SHL)	Within project area: 0 Within project radius: 0
California Register of Historical Resources (CAL REG)	Within project area: 1 Within project radius: 7
National Register of Historic Places (NRHP)	Within project area: 0 Within project radius: 2

Archaeological Determinations of Eligibility (ADOE):	Within project area: 0 Within project radius: 0
---	--

HISTORIC MAP REVIEW – The Downey, CA (1943) 1:62,500 scale historic maps indicated that in 1943 the area was already significantly developed. The City of Long Beach was already present, which included many improved roads and buildings. There were seven churches located within the ½-mile search radius and the project area was located at the edge of the beach at San Pedro Bay.

RECOMMENDATIONS

The subject property may have multiple known addresses (100 E Ocean Blvd. and 110 E Ocean Blvd.). The National Register Nomination forms for the property list the address as 110 W. Ocean; although this may simply be an address error. Nevertheless, most of the previously standing historical structure known as the “Jergens Trust Building” was already removed several years ago. However, it appears that a below ground-level portion of the arcade may still remain. This property appears to be listed on the California Register and found eligible (prior to significant demolition) for the National Register of Historic Places. The property has been developed since approximately 1918 and may be sensitive for archaeological resources. Although the project occurs in an area where the surface and subsurface appears to have been previously disturbed, there is still potential for the discovery of prehistoric or historic cultural resources within the project boundaries. Therefore, an archeological monitor is recommended during all ground disturbing activities. In the event that any evidence of cultural resources is encountered, all work within the vicinity of the find should stop until the qualified archaeologist can assess such finds and make recommendations. Excavation of potential cultural resources should not be attempted by project personnel. Additionally, the Native American Heritage Commission should be consulted to identify if any additional traditional cultural properties or other sacred sites are known to be in the area.

For your convenience, you may find a professional consultant* at www.chrisinfo.org. Any resulting reports by the qualified consultant should be submitted to the South Central Coastal Information Center as soon as possible.

*The SCCIC does not endorse any particular consultant and makes no claims about the qualifications of any person listed. Each consultant on this list self-reports that they meet current professional standards.

If you have any questions regarding the results presented herein, please contact the office at 657.278.5395 Monday through Thursday 9:00 am to 3:30 pm. Should you require any additional information for the above referenced project, reference the SCCIC number listed above when making inquiries. Requests made after initial invoicing will result in the preparation of a separate invoice.

Thank you for using the California Historical Resources Information System,

Enclosures:

(X) Invoice #18994.5049

Due to processing delays and other factors, not all of the historical resource reports and resource records that have been submitted to the Office of Historic Preservation are available via this records search. Additional information may be available through the federal, state, and local agencies that produced or paid for historical resource management work in the search area. Additionally, Native American tribes have historical resource information not in the California Historical Resources Information System (CHRIS) Inventory, and you should contact the California Native American Heritage Commission for information on local/regional tribal contacts.

The California Office of Historic Preservation (OHP) contracts with the California Historical Resources Information System's (CHRIS) regional Information Centers (ICs) to maintain information in the CHRIS inventory and make it available to local, state, and federal agencies, cultural resource professionals, Native American tribes, researchers, and the public. Recommendations made by IC coordinators or their staff regarding the interpretation and application of this information are advisory only. Such recommendations do not necessarily represent the evaluation or opinion of the State Historic Preservation Officer in carrying out the OHP's regulatory authority under federal and state law.
