From the Manager

Gerardo Mouet is the City’s new Director of Parks, Recreation and Marine.

Please join the entire staff of Parks, Recreation and Marine (PRM) in welcoming Gerardo Mouet as their new Director.

Mr. Mouet will be responsible for overseeing 1,000 full-time and part-time employees and a budget of over $55 million that provides animal care services, marine and beach maintenance, park facilities and ground maintenance, community recreation services and department administration.

Mr. Mouet brings 28 years of local government experience including overseeing parks, recreation and community services operations, human resources administration, and city-wide budget development and contract administration in his previous positions.

For the past 14 years, Gerardo has served as the executive director for the City of Santa Ana’s Parks, Recreation and Community Services Agency. During his tenure, he managed 50 parks, 17 Recreation Centers, the Santa Ana Zoo and the Public Library System. He oversaw a budget of $24 million annually with 72 full-time employees and 350 part-time employees. Gerardo is also a member of the Orange County Fair and Event Center Board of Directors.

Mr. Mouet holds a Bachelor’s Degree in Political Science from the University of California, San Diego.

Please join us in congratulating Mr. Mouet on his appointment!

Until next time,
Elvira Hallinan
Manager, Marinas and Beaches

### Lost
**DISNEY** keychain with a restroom key.
If you found a restroom key on a DISNEY key chain at Alamitos Bay Marina, please return it to the Alamitos Bay Marina office. The key chain has sentimental value and our boater would love to get it back (key not necessary). **No questions asked**, just drop the key chain off at the office and we will get it to the owner.
Advanced Maritime Education at SmartCaptains.com offers U.S. Coast Guard approved OUPV “6-Pack” 3-Weekend Captain’s License course and exams in Long Beach.

The OUPV license allows you to carry a maximum of six paying passengers (abbreviated as “pax” in the ship’s log), hence the popular term “6-pack” license.

This license is for operating uninspected, recreational-type vessels up to 100 gross tons capacity. These are vessels that are not specifically designed, approved nor built for commercial service. Examples would be recreational power boats and most auxiliary sail boats.

Topics presented are based on the four-part USCG exam. We incorporate our instructors’ and students’ shared maritime experience and insight in our courses. If you are looking for a dynamic, upbeat path to your USCG Captain’s License, or if you haven’t sat in a classroom in many years, this is the school for you!

Boat owners from our Marinas have qualified for the USCG license in every class so what are you waiting for? The next 3 weekend class begins Friday, September 14. The cost for this course is $695. For more information, visit: www.SmartCaptains.com or call (415) 798-7544.

Captain Robert McCreary, an instructor and U.S. Coast Guard 100-ton licensed captain has over 20 years sailing and piloting experience.

Long Beach has one of the more unique waterfronts on the Coast. With our “Barrier Reef,” breakwater, we have protected Ocean waters that are dotted with Islands and calm seas. The Lee of Island White has become famous for its sheltered anchorage for weekend boaters. We have added moorings to the Lee of White that allows stays up to 10 days in a row. This allows for a safe, simple and comfortable stay for just a dollar a foot per day! No mud on the decks, crossing anchor lines or the dreaded anchor drag.

These moorings create a “convenient Catalina” right here in your own backyard. We are just a gallon away…. You can even reserve by text at 562-881-0567 to get in when the getting is good. Come out for the day or stay for the night. In the lee of the Island the winds and waters are calm and warm even in the afternoon breeze. BBQ, swim, float and relax. The sunsets are unmatched and the City lights at night are intoxicating.

We are right in between the two marinas just a short sail or motor away. It’s so easy and so special. There is not another place on the Coast that can boast such a perfect and convenient location to use your boat and our unique waterfront. Tell your friends and make it a staycation that will rival vacations!

Some information to know as a local boater:
1. Anchoring at Island White is only allowed on the weekends.
2. Belmont Moorings are allowed 7 days a week
3. Our moorings are generally protected from the prevailing westerly breeze.
4. We are just a little over a mile from Alamitos Bay and the Downtown marina.
5. The water temps are in the 70’s! Air temps are in the 80’s Peerfect.......
Parking is a hot topic within the marinas and as much as we are excited about the growth of our city with new construction, visitors wanting to enjoy our waterfront and special events, all these activities ultimately affect our parking lots. With that said, it is important to remind our boaters of the parking lot rules because we have asked Marine Patrol to step up enforcement.

Just a reminder, to avoid a parking citation all vehicles need to be moved during posted street sweeping dates and times. Also, per the Long Beach Municipal Code, which applies city wide, all vehicles must be moved every 72 hours (this helps us with storage of vehicles in our lots). If you are going to be gone longer than 72 hours please stop by the office and fill out an extended parking form. By filling this out this form Marine Patrol then knows you are going to be gone longer than 72 hours and will not enforce the 72-hour rule. This option is only available for customers when their boat is out of the slip.

The City is in the process of developing an Alamitos Bay Parking and Circulation Master Plan, see link: http://longbeach.gov/economicdevelopment/alamitos-bay-parking--circulation-master-plan/ during the planning process you can direct your suggestions and frustration to: Alamitosbaymarina@longbeach.gov we will make sure the committee receives them all. In the meantime, we ask for your patience.

Regarding the Alamitos Bay Farmer’s Market, due to the long-standing precedent, Marine Patrol will not cite vehicles in boat owner parking on Sundays until after 3PM. We are actively seeking alternatives to accommodate the Farmers Market.

We will continue to preserve our boat owner parking and appreciate your help in following the rules. Per the Marina Rules and Regulation, here is a synopsis:

N. Parking Lots:

1. No person shall discharge waste material from, store materials in, or sleep or cook in a house trailer, boat trailer, camper, or other vehicle while such vehicle is in a parking space within the parking lots or facilities adjacent to the Long Beach marinas.

2. No vehicle or apparatus capable of being registered as a vehicle or trailer shall block the parking lanes in the Long Beach marinas.

3. No vehicle in excess of twenty-one (21) feet in overall length may occupy any parking space within the parking lots adjacent to the Shoreline Marina or in the parking lot adjacent to Basin 4 in the Alamitos Bay Marina without the permission of the Manager or his designee. No vehicle in excess of twenty-four (24) feet in overall length may occupy any parking space within the parking lots adjacent to Alamitos Bay Marina, with the exception of Basin 4 described herein. Vehicles must be parked in a manner not to protrude past the parking stall lines, or to impede the flow of traffic.

4. No person shall remain, stay, or loiter in any marina parking lot between the hours of sunset and 5 a.m.

5. To facilitate the sweeping and cleaning of the marina parking lots, certain sections may be posted with restricted parking times. Failure to observe the posted restrictions will result in the issuance of parking citations.

6. Permittees may not construct or reconstruct or cause to be constructed or reconstructed, repair or cause to be repaired, to grease or cause to be greased, or perform any type of maintenance, on any vehicle or vessel or any part thereof within the parking lots of the marinas. However, continued on page 6
7. The washing of any vehicle, vessel, trailer or apparatus capable of being registered as a vehicle or trailer is prohibited in the parking lots of the Long Beach marinas. This includes commercial vehicle detailing.

8. Waste Oil Tanks - No person shall place any substance in waste oil tanks other than waste motor oil.

9. Dilapidated vehicles, and inoperable vehicles are not allowed in the marina parking lots. A vehicle must have current registration. Failure to remove a prohibited vehicle will result in the impound of the vehicle at a cost to the owner.

10. All vehicles must be moved every seventy-two (72) hours per Long Beach Municipal Code 10.30.070. Permittees requesting extended parking, due to trips beyond the seventy-two (72) hour requirement, may inquire with the Marina office for potential extended parking accommodations, understanding such requests are subject to review and administrative approval.

11. The following is a list of vehicles which are not allowed in the marina parking lots without a specialized permit issued by the Marine Bureau; such vehicles will not be issued boat owner parking passes:

   - A "bus" - a vehicle, including a trailer bus, designed, used or maintained for carrying more than 15 persons including the driver, for hire, or for carrying more than 10 persons, including the driver, by any non-profit organization (CVC 233).
   - A "camper" - structure designed to be mounted to a vehicle which is designed for human habitation or camping (CVC 243).
   - A "camper trailer" - vehicle under 16 feet in length designed to be used on a highway capable of human habitation for camping or recreational purposes (CVC 242).
   - A "fifth wheel" - vehicle designed for recreational purposes to carry persons or property on its own structure and so constructed as to be drawn by a motor vehicle by means of a kingpin connecting device (CVC 432).
   - A "housecar" - motor vehicle originally designed, or permanently altered, and equipped for human habitation, or to which a camper has been permanently attached (CVC 362).
   - A "motorhome" - vehicle designed to provide temporary living quarters, built as an integral part of, or permanently attached to, a self-propelled motor vehicle chassis or van.
   - A "trailer bus" - motor truck or track tractor pulling a trailer or semitrailer designed, used, or maintained for the transportation of more than 1- persons, including the driver (CVC 636).
   - A "trailer coach" - vehicle, other than a motor vehicle, designed for human habitation or human occupancy for industrial, professional, or commercial purposes, for carrying property on its own structure, and for being drawn by a motor vehicle. Includes "park" trailer (CVC 635).
   - A "boat trailer" - a trailer designed to launch, carry, retrieve or store a vessel.

New tenant The Sir Winston, a dinner cruise vessel, makes its Long Beach debut in Rainbow Harbor. With four decks the vessel seats up to 370 guests and is available for corporate and private event experiences. To reserve call: (562) 432-4900.
