

Naples Seawall Phase 2

Naples Island

PROJECT SUMMARY

The Naples Seawall Phase 2 project involves installing a 2,148 linear feet of new steel sheet-pile seawall on the water side of the existing vertical concrete seawall in Naples Island. Additional work includes new guard rails, landscape beds, sidewalks, a new drainage system, a new access platform support, modified pipe mornings and ladders.

Community Benefits:

- Improve public safety
- Improve ADA accessibility
- Improve infrastructure quality
