

Citywide Battery Storage Project

Multiple Sites

PROJECT SUMMARY

The Citywide Battery Storage project includes the installation of battery packs and other necessary infrastructure for storing energy at various sites across the city. These systems are being provided at minimal cost to the City under a special program from Southern California Edison. These batteries will provide cost savings estimated at approximately \$200,000 per year, which will be shared with the City's contractor.

Community Benefits:

- Cost savings on utilities
- Reliable grid by reducing peak demand

ANTICIPATED PROJECT TIMELINE

Current Phase:
Construction

Planning Complete:
January 2018

Design Complete:
February 2019

Bid/Award Complete:
June 2018

Construction Complete:
Fall 2019

PROJECT FUNDING

Project Value \$100,000
