

Citywide EV Chargers

 Multiple Sites

PROJECT SUMMARY

The Citywide EV Charger project is a multi-year program which will help install up to 250 EV chargers for public and City Fleet use. The project will receive funding from AB32 funds as well as support from the Mobile Source Air Pollution Reduction Committee grant funds.

Community Benefits:

- Increase access to EV charging stations
- Reduce charging fees for users of City parking lots/structures
- Facilitate electrification of City Fleet
