

Measure BBB does **NOT** strengthen term limits. It **ADDS** an **additional** term to the current two-term limit.

Simply put, Measure BBB is a scam.

The citizens of Long Beach have twice voted for our two-term limit. It was passed in 1992 and reaffirmed in 2007 with a write-in option.

Now City Hall politicians hope to trick you into **ADDING ANOTHER TERM** to their current 8-year term limit.

Just look who is behind this thinly veiled voter hoax: Career politicians and special interest officials.

The politicians, by claiming their true aim is to get rid of the current write-in system, are trying to hide that they are really adding to term limits. But write-in candidacy is a right of the people, enshrined in California state law.

Our current two-term limit helps keep in check corrupt and shady practices, stemming from the web of City Hall special interests. Their connections tend to entangle incumbents more and more over time.

Don't YOU THINK that 8 years is enough to get the job done?

Don't fall for the BBB scam.

BBB means voters would have to live with self-serving rather than people-serving incumbent politicians for up to 12 years! That's 4 MORE YEARS beyond the 8 they already get!

The decision is clear...

Don't hand the Mayor and City Council a third term on a platter. A third term should be on a write-in basis only.

VOTE NO! KEEP POLITICIANS CAPPED AT TWO TERMS.
