

## **Increase Turnout in School Board Elections – Vote Yes on Measure LBU**

**Measure LBU** will increase focus on local education issues, increase residents' participation in school board elections, and allow LBUSD voters to utilize the County's accessible equipment to meet voters' individual language access needs.

Voting no on **Measure LBU** would reduce voter participation to a third of what the City of Long Beach has experienced since moving its elections to the same timetable as state and federal elections.

A no vote slashes the number of voters and accountability in each election, all while increasing costs.

**VOTE YES on Measure LBU** to ensure more voters, more accountability and lower election costs.

**Putting elections in the hands of the many ensures civil rights for all.**

**Vote YES on Measure LBU** to increase voter participation, save our communities money on election costs, and keep the vision of Long Beach Unified families in the hands of the electorate, not the few.
