

DR. FELTON WILLIAMS

Occupation: President, Long Beach Unified School District Board of Education

LBUSD has been recognized as a national leader in urban education and among the top 20 urban school districts in the world. Graduation rates are at record levels, more students are enrolled in Advanced Placement courses, students are earning college credit through the Ethnic Studies program, and the Long Beach College Promise is providing students the opportunity to attend college. I am seeking re-election to continue fighting for our kids.

PROVEN LEADERSHIP

I have applied my 36 years of professional education experience to bring about the District's Academic and Career Success for All Students Initiative. This initiative has set high expectations for all students to attain proficiency in core subjects and prepare for college or a career; provided safe and secure campuses, and improved communications to parents.

EDUCATION

Claremont Graduate University, Ph.D. in Higher Education
Long Beach State, Masters Business Administration
Long Beach State, B.A. Business Administration
