RESOLUTION NO. RES-06-0017

A RESOLUTION OF THE CITY COUNCIL OF THE
CITY OF LONG BEACH IN SUPPORT OF ASSEMBLY BILL
1101 DEFINING DIESEL MAGNET SOURCES AND
REQUIRING MONITORING, RISK ASSESSMENT AND RISK
REDUCTION OF THOSE SOURCES

WHEREAS, the City of Long Beach has consistently expressed its
support for legislation to improve the quality of air in the City of Long Beach by reducing
particulate matter; and

WHEREAS, the California State Assembly has passed Assembly Bill
("A.B.") 1101 which will add sections to the Health and Safety Code to define "Diesel
Magnet Sources," and which will require air pollution control districts to develop diesel
reduction measures and plans to reduce emissions from designated sources; and

WHEREAS, over ninety percent of the cancer risk from air pollution is
caused by pollutants emitted from mobile sources such as trucks, ships, airplanes,
locomotive engines and other diesel powered equipment; and

WHEREAS, such mobile sources are concentrated at facilities such as
ports, airport and rail yards; and

WHEREAS, AB 1101 would designate ports, airports, and rail yards as
"diesel magnet sources," and require those facilities to prepare emissions inventories
and risk assessments, to notify potentially affected communities, and to develop and
implement risk reduction measures to address significant public health risks; and

WHEREAS, the City Council believes that such measures are in the best
interests of the residents of the City of Long Beach;

NOW, THEREFORE, the City Council of the City of Long Beach resolves
as follows:
