To: Patrick H. West, City Manager 
From: Robert Dowell, Director of Energy Resources 
For: Mayor and Members of the City Council
Subject: Department of Long Beach Gas and Oil Name Change to the Energy Resources Department

Effective March 29, 2018, the Long Beach Gas and Oil Department has been renamed the Energy Resources Department. This “rebranding” is more closely aligned to primary services provided to the residents and businesses of Long Beach and Signal Hill. The primary lines of business for the Energy Resources Department will continue to include all natural gas utility functions, all oil production functions, and all waste-to-energy functions performed at SERRF.

Along with the name change is the new Department logo that appears on this letterhead. The cost of this name change will be minimized by changing uniform patches and any vehicle logos when they come up for regular replacement.
