

Date: May 30, 2019

To: Mayor and Members of the City Council

From: Patrick H. West, City Manager 

Subject: **Support for SB 54 (Allen): California Circular Economy and Plastic Pollution Reduction Act**

Attached, for your information is a letter of support for SB 54 (Allen), the California Circular Economy and Plastic Pollution Reduction Act. On April 9, 2019, the City Council voted unanimously to support the bill. SB 54 proposes to establish as a policy goal of the State, that by 2030, manufacturers and retailers achieve a 75 percent reduction of waste generated from single-use packaging and products sold in California through source reduction, recycling, or composting.

We are pleased to report that on May 29, 2019, the California State Senate approved this measure on a vote of 28-8, with two members abstaining. The entire Long Beach Senate delegation, inclusive of Senator Bradford and Senator Umberg, voted in support of SB 54. This legislation has now moved to the California State Assembly for consideration.

If you have questions or comments, please contact Diana Tang, Manager of Government Affairs, at (562) 570-6506.

RE: Support for SB 54 (Allen) California Circular Economy and Plastic Pollution Reduction Act

Dear Senator Allen:

On behalf of the City of Long Beach (City), I write in support of Senate Bill 54 (Allen). On April 9, 2019, the Long Beach City Council voted unanimously to support this legislation. SB 54 proposes to require at least 75 percent of the State's distributed single-use products be source reduced or recycled by 2030. As a City that is committed to environmental responsibility, the City supports this bill.

As a coastal city with seven miles of beaches and two rivers, the City recognizes the impact of consumer products to the environment. For this and other health reasons, in May 2018, the Long Beach City Council unanimously approved the addition of Chapter 8.63 to its Municipal Code prohibiting businesses from using single-use food and beverage containers made of polystyrene, non-recyclable and non-compostable materials for prepared food distribution. One year later, and as of May 2019, 60 food providers in Long Beach have been recognized for supporting a Foam Free Long Beach. By December 3, 2019, the City will ensure all food providers use food containers that are free of polystyrene and rigid polystyrene #6 and recyclable or compostable. The City recognizes this as being one step forward to addressing a larger issue involving waste, which SB 54 does.

The City supports legislation that promotes an environmentally responsible approach to consumerism with the intent of reducing packaging waste and single-use disposable goods. The City intends to work with CalRecycle to implement actions designed to reasonably phase out distribution of single-use disposables. SB 54 provides a mechanism to facilitate this effort and is essential to preserving the State's environment.

Given these reasons, the City of Long Beach supports AB 54 (Allen).

Sincerely,

Patrick H. West
CITY MANAGER
