CITY OF LONG BEACH

Memorandum

Date: February 13, 2026

To: Thomas B. Modica, City Manager

From Meredith Reynolds, Deputy City Manager MKR

For: Mayor and Members of the City Council

Subject: **Grants Year in Review Report**

The Grants Office provides citywide coordination for grant seeking, grant writing, grant administration, and coordinating grant management activities to help secure grant funding that addresses a variety of City needs and that supports the City's 2030 Strategic Vision. A key deliverable of the Grants Office is to produce the Grants Year in Review Report (Report) to assess and evaluate grant applications submitted during the previous fiscal year. The intent of the Report is to track grant application successes, trends, and areas in need of improvement over time and use the data to provide direction to the Grants Office as well as City Departments to continue to maximize federal, state, county, and philanthropic funding to Long Beach. The Report is compiled by Grants Office staff every December, presented to the City Manager in January, and published in February.

Report Overview

The Grants Year in Review Report summarizes grant applications submitted, awarded, and grant-funded projects initiated in Fiscal Year 2025. The Report utilizes data provided by the City's Grant Application Approval process and the City's financial system (Munis). Key findings include:

- The City initiated 121 grant-funded programs and projects totaling over $250 million.[1]
- The City submitted 53 competitive grant applications, of which 24, amounting to more than $71 million, were selected for funding.[2]
- Forty-five percent of the City's grant applications were selected for funding.[3]

The Report further describes how recent shifts in federal and local grantmaking are affecting both current and future funding opportunities and includes a list of grants that have been reduced or terminated as a result of changing federal priorities.

Several grant-funded initiatives, including the Urban Areas Security Initiative, Downtown Walkable Corners, and the Raid Antiretroviral Therapy Program, are highlighted in the

[1] Includes projects listed in Munis with a starting fiscal year of 2025. Data accessed on December 19, 2025.
[2] Nine grant applications totaling over $433 million are currently pending award notification as of December 31, 2025.
[3] As of December 19, 2025.

Report. The Report also provides a list of grant applications submitted and grant-funded projects initiated in Fiscal Year 2025.

If you have any questions, please contact Meredith Reynolds, Deputy City Manager at Meredith.Reynolds@longbeach.gov or (562) 570-6677.

and Grants Impacted in 2025.....29

Introduction

Grant funds are vital to City operations as they often fund much-needed programs and projects that exceed the City's financial capacity or are in an emerging field where funding is limited. Grant funds may also help fund core services thereby allowing the City to pursue other priorities. In Fiscal Year 2025 (FY 25), the City initiated approximately 120 grant-funded projects totaling over $250 million [1]. These funds were in addition to the City's $3.6 billion budget (FY 25) and provided the opportunity to implement initiatives that may have otherwise gone unfunded.

Given the City's reliance on grant funding, the City Manager's Grants Office, which was formed in 2022, provides high-level strategy and project management related to grant seeking, grant-writing, grant administration, and coordinating grant management activities on a Citywide basis to maximize federal, state, county, and philanthropic funding. In FY 25, the Grants Office facilitated 12 Citywide Grants Collaborative meetings and trainings and provided technical support on several grant applications including tailored grant management, grant writing and peer review services.

Grants Year in Review Overview, FY 2025

53 Grant Applications Submitted
The City submitted 53 competitive grant applications requesting approximately $1 billion in FY 2025.

24 Applications Selected for Funding
To date, 24 grant applications totaling over $71 million have been selected for funding in FY 2025.

121 Projects Initiated
The City initiated 121 grant-funded projects totaling over $250 million in FY 2025.

[1] Includes projects listed in Munis as of December 19, 2025 with a start date between October 1, 2024 – September 30, 2025. See Attachment B for a full list of these programs and projects.

Introduction

As part of the Grants Office overall effort to maximize grant funding, the Grants Year in Review Report (Report) was developed to assess and evaluate grant applications submitted and awarded during the previous fiscal year. The intent of the Report is to track grant application successes, trends, and areas in need of improvement over time and use the data to provide direction to the Grants Office as well as City Departments. The Report is compiled by Grants Office staff beginning in November, presented to the City Manager in January, and released in February of every year.

This year's Report is especially significant given the recent shifts in the federal and local grantmaking. In early 2025, the incoming federal administration made several changes to the way grants are prioritized, reviewed and administered, many of which are outlined in the Improving Oversight of Federal Grantmaking Executive Order (August 7, 2025). These changes are now influencing state and local government grantmaking, affecting both the City's current and future grant awards. In light of this new direction, the Report outlines the key federal and local updates and their impact on the City's grant programs to date.

The Fire Department regularly receives UASI federal funding to support training, planning, and equipment.

The Report mainly utilizes data gathered from Grant Application Approval Forms (GAAFs), a part of the City's internal grant tracking system, as well as from the City's financial system, Munis. GAAFs are submitted by Department staff prior to applying for a grant and capture information such as project descriptions, amount of funding requested, funder type, and upon Grant Office staff follow-up, whether a grant application was selected for funding. However, using GAAF data poses some limitations. Only Departments that report to the City Manager are required to submit a GAAF, which means the GAAF dataset does not include grant application information from Departments such as Harbor and Long Beach Utilities.

Introduction

In addition, Departments typically submit a GAAF when applying for a competitive grant, however, are not required to submit one when applying for non-competitive grants. Instead, non-competitive grant applications are assessed as part of a separate Department of Financial Management review process and are not included in this Report. [2]

The Report also utilizes data from Munis, the City's financial system, which captures and distinguishes projects funded by competitive grants, non-competitive grants, and earmarks. However, the Munis dataset can only report on grant funding that has been accepted and appropriated. This process can take well over a year from the time a grant application was submitted, so it may not be an accurate reflection of the most recent grant applications that have been awarded funding. Also, since Munis only tracks grant applications awarded and not grant applications submitted, the City is unable to use the database to calculate the success rate of grant application submissions.

Taking into account the strengths and limitations of each dataset, along with the changes to grantmaking that occurred in FY 25, the Report is structured into three sections to offer the most comprehensive review of grants held by the City.

- The first section, Impacts of a Changing Grantmaking Landscape, outlines how recent shifts in federal, state, and local funding opportunities have affected the City.

- The second section, Grant Applications Submitted, uses GAAF data to assess the status of competitive grant applications submitted in FY 25 by Departments reporting to the City Manager. These grant applications are listed in Attachment A.

- The third section, Grant-Funded Projects Initiated, uses Munis data to analyze competitive and non-competitive grant-funded projects initiated by all City Departments in FY 25. These grants are listed in Attachment B.

The total award amount listed in Attachment A and Attachment B are $71,220,363 and $254,989,568 respectively. The awarded amounts are different because it can take several months from the time the City is notified of a grant award to the time grant funds are recorded in MUNIS. Therefore, most of the grant applications selected for funding that are listed in Attachment A have not yet resulted in an executed contract and have not been recorded in MUNIS, so are not listed in Attachment B.

[2] Non-competitive grants used to support projects initiated in FY 25 are reported in Table 3.

Impacts of a Changing Grant Landscape

In 2025, the incoming federal administration introduced significant changes to the grant landscape, many of which are described in the Improving Oversight of Federal Grantmaking Executive Order (August 7, 2025). These executive actions included changes to funding priorities, contract requirements, and how applications are assessed, among other modifications to federal grant-making.

The federal redirection reduced the City's access to funding in 2025 and is expected to limit future opportunities. Specifically, federal agencies have significantly reduced or eliminated existing contracts and future grant opportunities that fund climate as well as diversity, equity, and inclusion (DEI) initiatives. This included the termination of grants established under the Inflation Reduction Act (IRA), which had been designed in part to promote clean energy and address climate change. Federal agencies also reviewed grants containing DEI-related components and flagged them for early termination.

These funding reductions affected both direct and pass-through grants from local, county, and state entities. A list of the City's federally funded contracts and grants that were terminated or modified due to the federal redirection is included in Attachment C.

Artesia Great Boulevard Project partially funded by a LA Metro grant.

In addition to the reduction in federal funding opportunities, the Los Angeles County CEO and Department of Homeless Services and Housing have communicated significant fiscal challenges anticipated for the FY 26–27 Measure A Funding Plan, including depressed sales-tax revenue, the expiration of one-time funding sources, and increased obligations that together create a projected $300 million structural deficit for homelessness programs across Los Angeles County.

Impacts of a Changing Grant Landscape

Per the County rubric, Measure A funding for the Homeless Incentive Program (HIP) (administered by the Housing Authority of the City of Long Beach), currently valued at $993,000 and the City of Long Beach's Continuum of Care (CoC) funding, currently allocated at $8.2 million will be curtailed. This reduction will result in a loss of approximately $9.2 million in Measure A funding for the City of Long Beach's Health and Human Services Department programming beginning on July 1, 2026.

The loss of CoC and HIP funding will directly affect core operations, including shelter capacity, motel vouchers for families, Inclement Weather Shelter operations, outreach staffing, housing navigation services, move-in assistance, and approximately $1.3 million in administrative support. These funds also support foundational system functions such as the Homeless Management Information System, Coordinated Entry System, training, and landlord engagement.

Changes to federal, state, and local funding streams will pose significant challenges in securing grants for priority projects. It may require staff to make difficult decisions and scale back projects and services planned in the coming years. Moving forward, the City should be prepared to:

- Prioritize grant funding for core or essential services, where possible.
- Accelerate the exploration of alternative and innovative funding sources.
- Modify or scale back projects to align with available resources.
- Reframe projects to meet funder guidelines while preserving the project's goal and intent in alignment with City Council Priorities and City values.
- Develop contingency plans in the event grant funding is withdrawn unexpectedly.

These steps will help the City remain adaptable and implement priority projects despite shifting funding conditions.

The 51st Street Greenbelt broke ground in 2025. It is funded by multiple sources including grants from the Rivers and Mountains Conservancy, HUD, and the Port of Long Beach.

Grant Applications Submitted

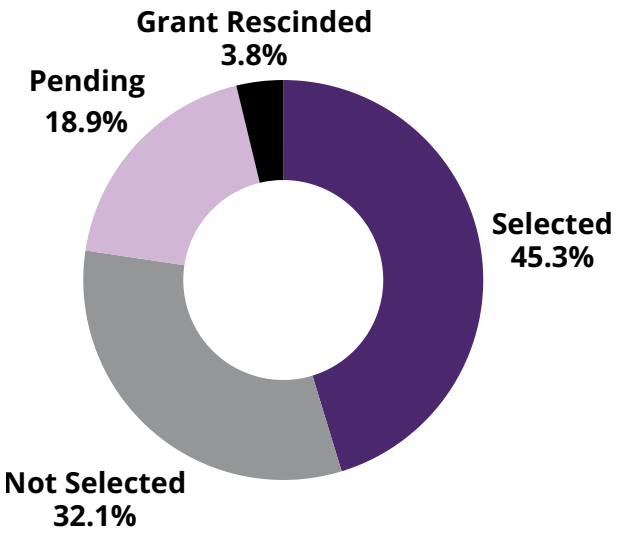
In FY 25, the City submitted 53 competitive grant applications requesting approximately $1 billion. Twenty-four of these grant applications, amounting to over $71 million, were selected for funding [3]. The following review analyzes this data, reporting on the status of grant applications, an evaluation of the grant applications selected for funding, and a comparison between previous fiscal years. See Table 1 and Figure A for an overview of grant applications submitted and selected. See Attachment A for a complete list of grant applications submitted in FY 25.

Table 1: Grant Application Status, FY 25

FY 25 Grant Application Status	Number	Value
Applications Submitted	53	$1,000,630,396
Applications Selected for Funding	24	$119,914,095
Award Status Pending Notification	9	$433,602,202*
Grant Opportunity Rescinded	2	$1,746,519**

*Includes a $400 million application submitted to the U.S. Department of Transportation for improvements to Shoemaker Bridge. **The City submitted two grant applications in response to Notice of Funding Opportunities that were later rescinded by the U.S. Environmental Protection Agency and FEMA.

Figure A: Grant Application Status by Percentage, FY 25



[3] Grant applications submitted in FY 2025 are considered applications with a due date between October 1, 2024 – September 30, 2025. Grant applications selected for funding includes information as of December 31, 2025.

Grant Applications Submitted

Figures B and C examine grant applications selected for funding by source [4], showing that the City is slated to receive approximately $40 million (56% of funding) from a federal agency, $12 million (17%) from the state, $19 million (27% of funding) from a local funding source such as the Port of Long Beach, Metro, or Los Angeles County, and $285 thousand (less than 1% of funding) from foundations or similar philanthropic agencies.

Figure B: Value of Grant Applications Selected for Funding by Source, FY 25

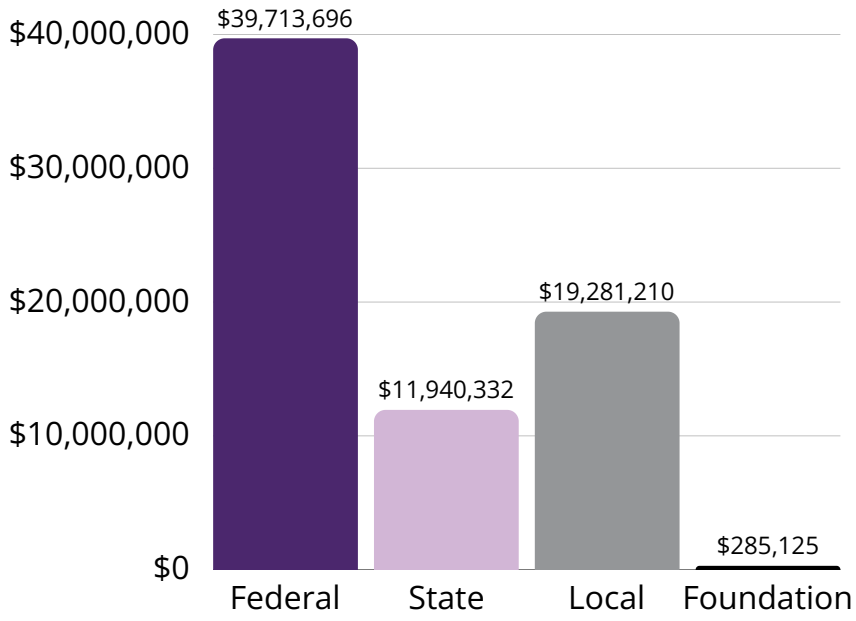


Figure C: Percentage of Grant Applications Selected for Funding by Source, FY 25

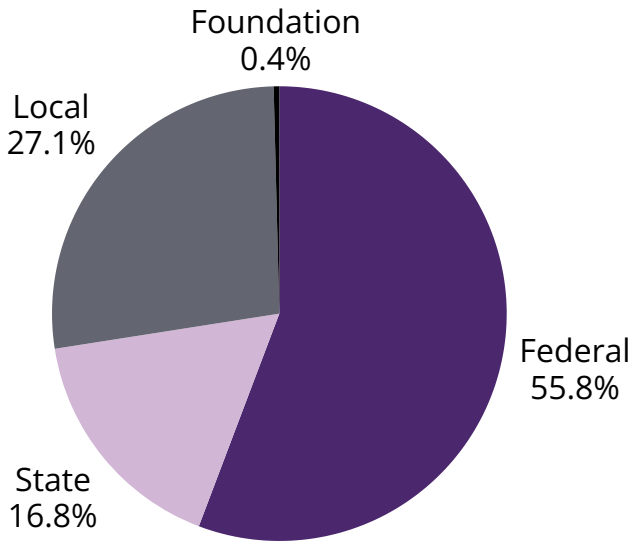


[4] Funding source is defined as the grant's original source of funding. For example, if a department submits a grant application to the state, but the funding originates from a federal funding source, the user is instructed to label the grant as a federal grant.

Grant Applications Submitted

Table 2 presents the grant application status by department, revealing that the Health and Human Services Department submitted the highest number of applications, totaling 19, while the Public Works Department has received the most funding, exceeding $30 million.

Table 2: Grant Applications Status by Department, FY 25

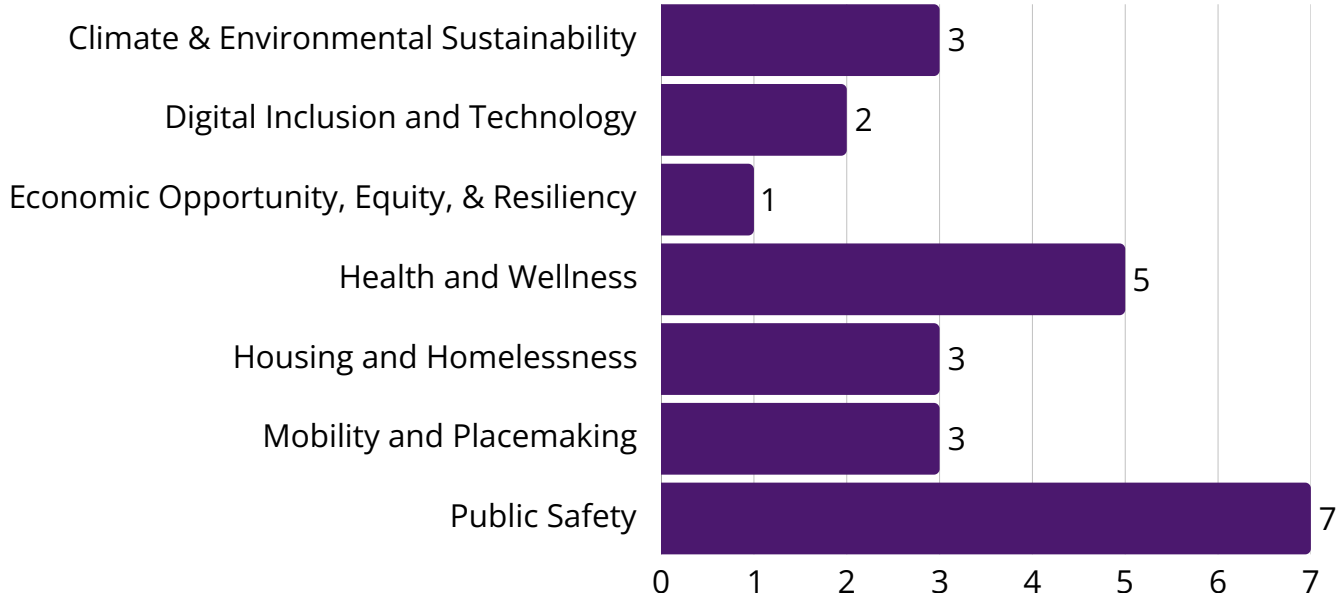
Department	Applications Submitted	Applications Selected for Funding	Applications Not Selected for Funding or Rescinded	Pending Funder Notification	Dollar Amount of Applications Selected for Funding
Airport	1	1	0	0	$24,323,696
City Manager	5	1	4	0	$1,198,263
Community Development	4	0	3*	1	0
Economic Development	4	1	2	1	$2,600,000
Health & Human Services	19	10	6	3	$11,716,940
Parks, Recration & Marine	2	2	0	0	$89,796
Police	2	2	0	0	$490,000
Public Works	13	5	4	4	$30,556,491
Technology & Innovation	3	2	1	0	$245,175
Total	**53**	**24**	**20**	**9**	**$71,220,363**

*The U.S. Environmental Protection Agency and Federal Emergency Management Agency rescinded two Notice of Funding Opportunities after Community Development submitted grant applications.

Grant Applications Submitted

Figure D shows the number of grant applications selected for funding as they align with the Long Beach 2030 Strategic Vision (Strategic Vision), the City's guiding document. In FY 25, the City was selected to receive 7 grants that fall under the Public Safety theme, 5 grants that fall under the Health and Wellness theme, and 3 grants that fall under the Climate & Environmental Sustainability, Housing and Homelessness, and Mobility and Placemaking themes.

Figure D: Number of Grant Applications Selected for Funding by 2030 Strategic Vision Theme, FY 25



Grant Applications Submitted

Figures E and F compare grant application data between FY 23 and FY 25. Roughly half of all applications were selected for funding throughout this period, with FY 24 reaching the highest selection rate at 57%. Although FY 24 shows the lowest overall success rate at 45%, approximately 17% of applications are still awaiting funder decisions, and two were not selected due to the cancellation of the funders' Notice of Funding Opportunity (NOFO).

The highest number of grant applications were submitted in FY 24 with 82 applications but took a significant dip in FY 25 with 53 applications.

Figure E: Percentage of Grant Applications Selected by Fiscal Year

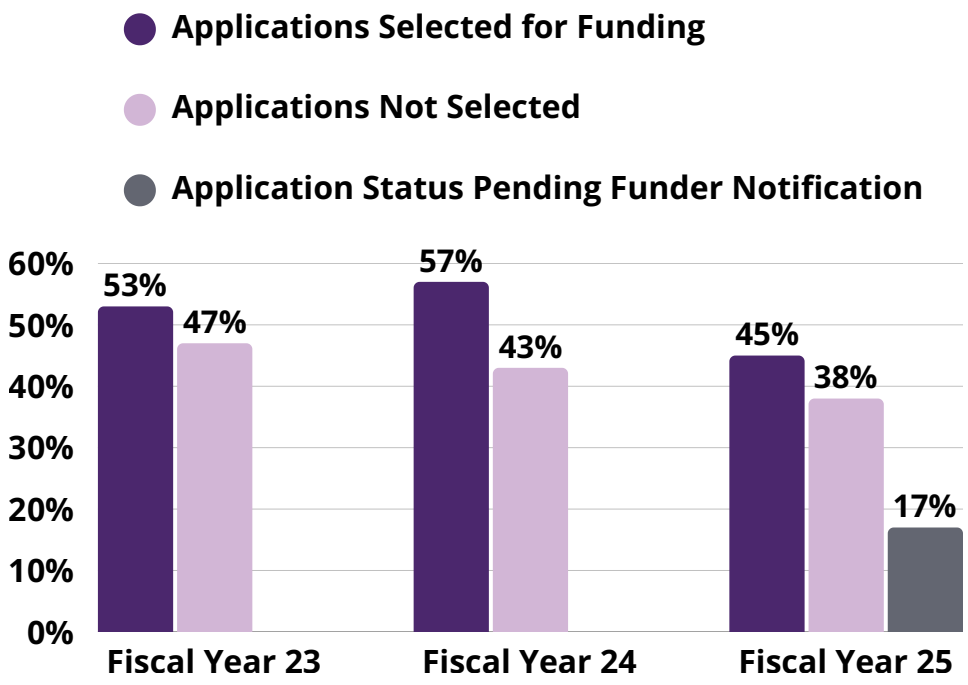


Figure F: Number of Grant Applications Submitted by Fiscal Year

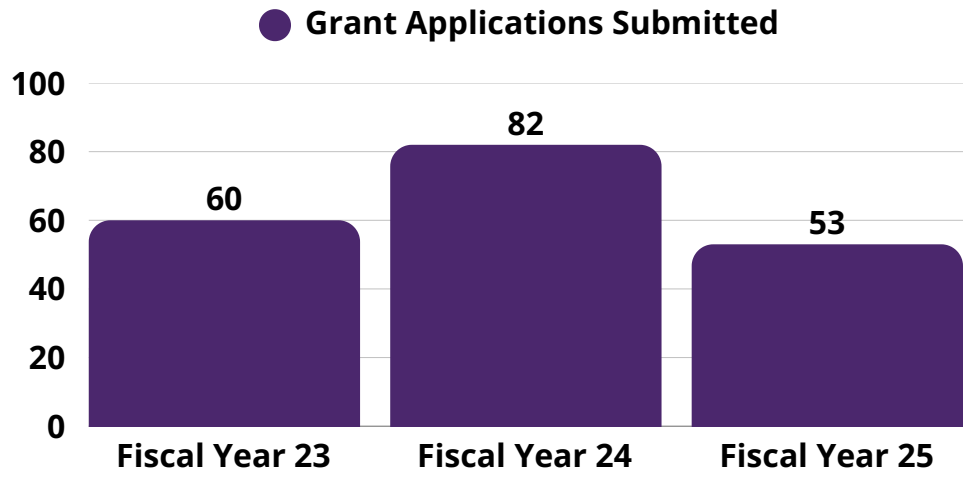


Grant-Funded Projects Initiated

In FY 25, the City initiated 121 projects funded by nearly $255 million in grant funding [5]. The following section further examines these initiated projects, including grant-funded projects initiated by grant type, funding source, department, strategic vision theme, and a fiscal year comparison. Please note, initiated is defined as grant-funded projects that are recorded in Munis with a start date that falls within FY 25. It does not necessarily mean that all funds have been received or expended within that period. See Attachment B for a list of projects.

The City typically receives three types of grants. These grants include competitive grants which are those that are awarded through a competitive application process based on the merits of a proposal, non-competitive grants (also referred to as formula or entitlement grants), which are those that provide funds to specific agencies based on a predetermined formula, and earmarks which stem from legislative representatives with the authority to direct federal or state funding to support local projects and programs within their districts. As shown in Table 3 and Figure G, 121 grant-funded projects initiated in FY 25 were funded by approximately $129 million in competitive grants (50.7% of funding), $122 million in non-competitive grants (47.9% of funding), and $3.5 million in earmarks (1.4% of funding).

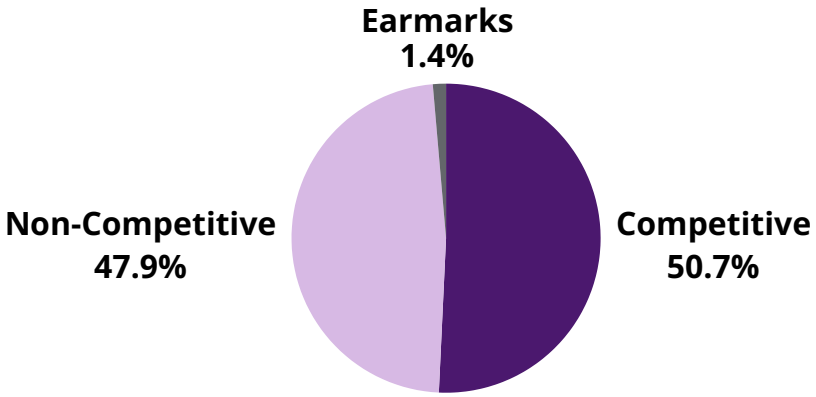
Table 3: Grant-Funded Projects Initiated by Grant Type, FY 25

Grant Type	Number of Projects	Value
Competitive	70	$129,394,224
Non-Competitive	49	$122,095,344
Earmark	2	$3,500,000
Total	**121**	**$254,989,568**

[5] Includes projects listed in Munis with a starting fiscal year of 2025. Data accessed on of December 19, 2025. See Attachment B for a full list of these programs and projects.

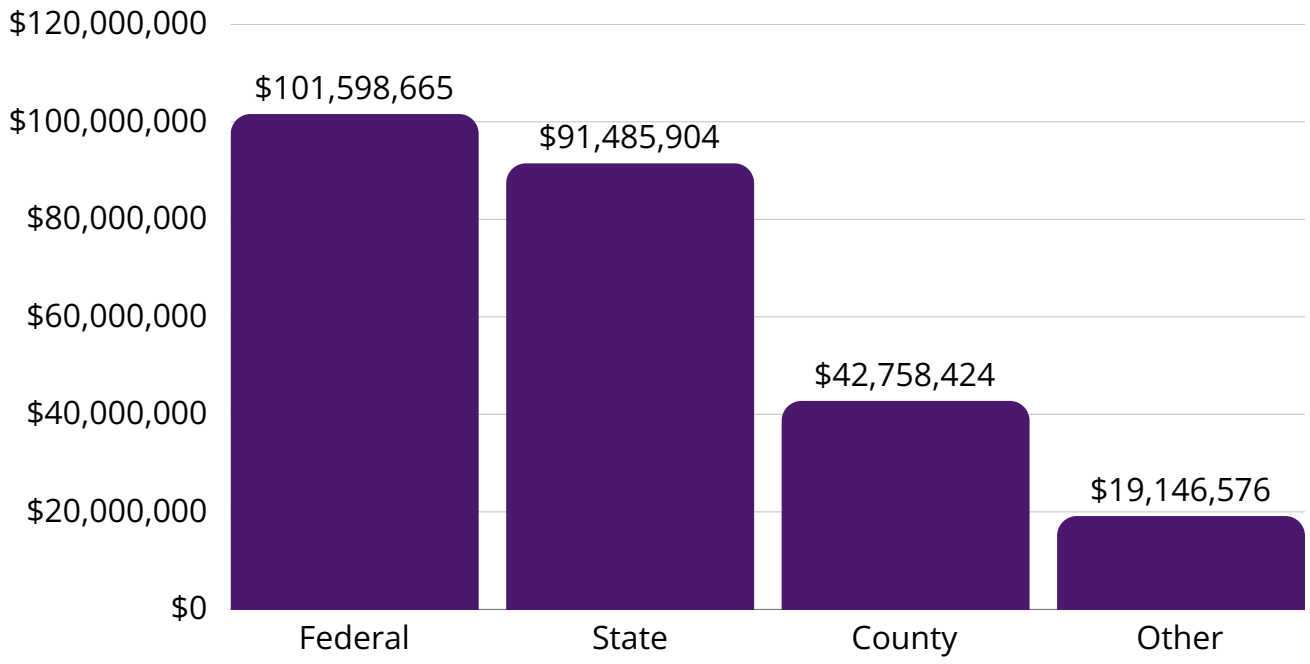
Grant-Funded Projects Initiated

Figure G: Percentage of Funding for Projects Initiated by Grant Type, FY 25



Figures H and I examine grant-funded projects that were initiated in FY 25 categorized by funding source. Approximately $102 million (39.8% of grant funds) derived from a federal funding source, $91 million (35.9% of grant funds) derived from the state, $43 million (16.8% of grant funds) derived from the county, and $19 million (7.5% of grant funds) derived from "other" which typically includes foundations and other philanthropic entities.

Figure H: Value of Grant-Funded Projects Initiated by Funding Source, FY 25



Grant-Funded Projects Initiated

Figure I: Percentage of Grant-Funded Projects Initiated by Funding Source, FY 25

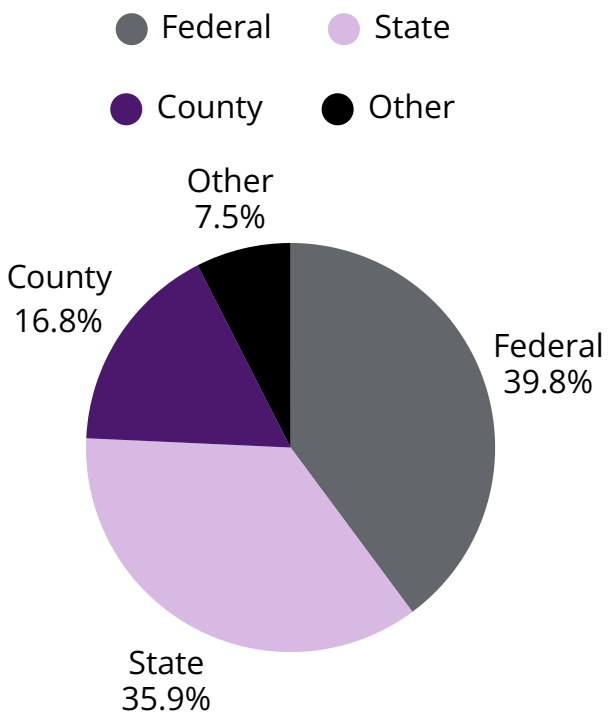


Figure J shows the number of grant-funded projects initiated in FY 25 as they align with the Long Beach 2030 Strategic Vision. It includes 29 projects under the Health and Wellness theme, 29 projects under the Economic Opportunity, Equity, and Resiliency theme, and 22 projects under the Housing and Homelessness theme.

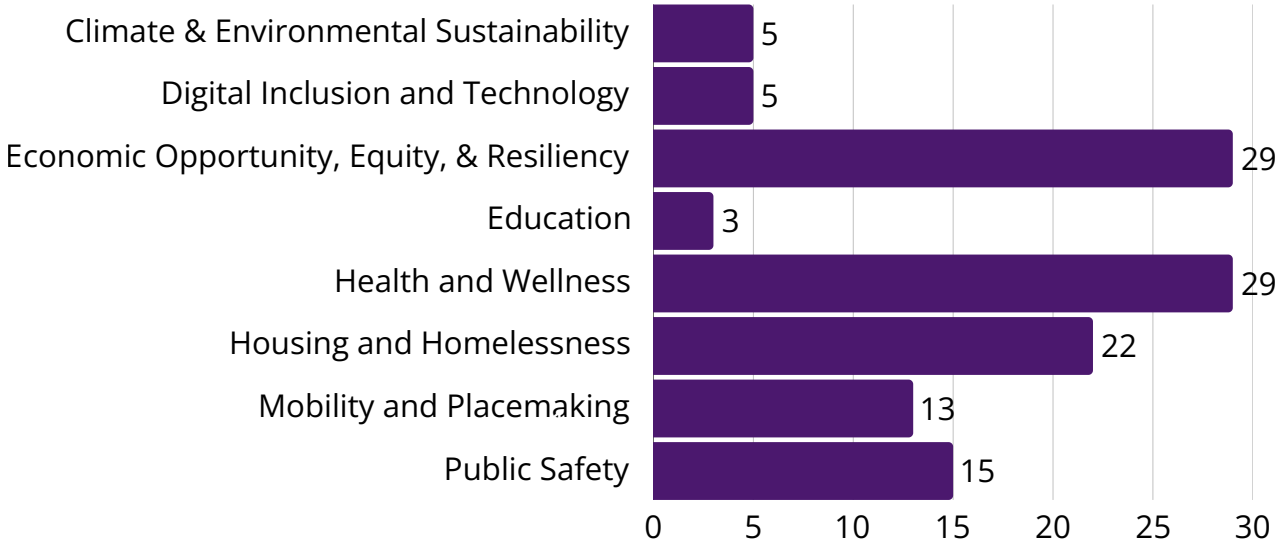
Figure J: Grant-Funded Projects Initiated by 2030 Strategic Vision Theme, FY 25



Grant-Funded Projects Initiated

Table 4 presents grant-funded projects initiated by department, which shows that the Health and Human Services Department initiated 49 grant-funded projects totaling $95 million (37% of total dollars awarded), Public Works initiated 12 grant-funded projects totaling $61 million (24% of total dollars awarded), and the Community Development Department initiated 9 grant-funded projects totaling $40 million (16% of total dollars awarded).

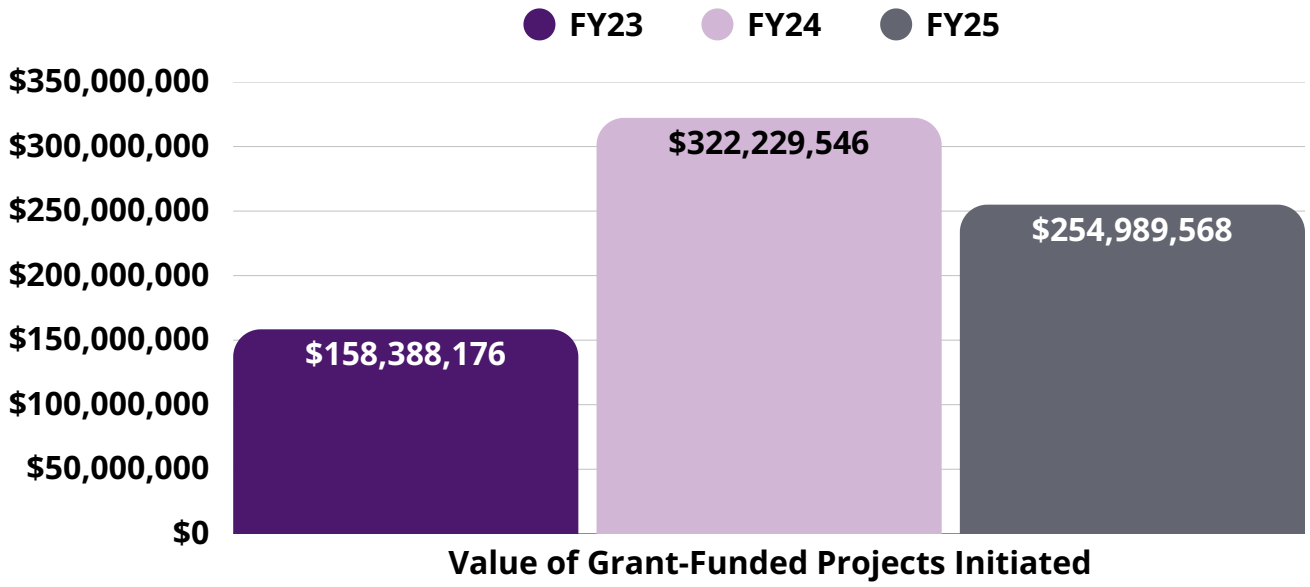
Table 4: Grant-Funded Projects Initiated by Department, FY 25

Department	Number of Projects Initiated	Awarded Amount (Dollar)	Awarded Amount (Percentage)
Airport	1	$24,323,696	9.54%
City Manager	2	$196,959	.08%
City Prosecutor	2	$1,650,000	.65%
Community Development	9	$40,635,315	15.94%
Disaster Preparedness	1	$69,388	.03%
Economic Development	24	$12,607,305	4.94%
Harbor	4	$10,487,250	4.11%
Health & Human Services	49	$95,261,900	37.36%
Parks, Recreation & Marine	7	$6,631,128	2.60%
Police	5	$1,366,680	.54%
Public Works	12	$61,100,749	23.96%
Technology & Innovation	5	$659,196	.26%
Total	**121**	**$254,989,568**	**100%**

Grant-Funded Projects Initiated

As depicted in Figure K, approximately $255 million in grant funding was secured to initiate 121 projects in FY 25, approximately $322 million for 107 projects in FY 24, and $158 million for 130 projects in FY 23. The Public Works Department and the Airport each received $25 million in federal grants for FY25, bringing the City's total grant funding well past the $200 million mark. While the notable difference between FY 23 and FY 24 can be largely attributed to four substantial grants, each over $30 million, received by the Harbor and Public Works Departments.

Figure K: Value of Grant-Funded Projects Initiated, FY 23 - 25



Grant-Funded Initiative Highlights

Urban Areas Security Initiative

Department: Fire
Funder: California Governor's Office of Emergency Services via City of Los Angeles
Grant Name: FEMA's Urban Areas Security Initiative (UASI)
Project: UASI 2024
Grant Awarded: $2.5 million

The Urban Areas Security Initiative (UASI) 2024 grant will be used to support regional training activities and incident planning and response capabilities. It will also be used to fund equipment acquisition needed to support the coordination and delivery of regional Homeland Security programs, which include the purchase of a replacement command post vehicle, Port dive team equipment and training, urban search and rescue apparatus, counterterrorism and emergency response training, and an operating system upgrade at the Emergency Operation Center.

Grant-Funded Initiative Highlights

Cannabis Equity Grants Program

Department: Economic Development
Funder: Governor's Office of Business and Economic Development (GO-Biz)
Grant Name: Cannabis Equity Grants Program for Local Jurisdictions
Project: Cannabis Equity Program
Grant Awarded: $1.2 million

The Cannabis Equity Program is advancing economic opportunity in Long Beach by supporting entrepreneurs from communities disproportionately affected by past cannabis criminalization. Through GO-Biz funding, eligible participants can apply for grants from the City to help cover essential startup needs including rent, licensing fees, legal assistance, compliance support, equipment, and capital improvements. In addition, equity applicants receive direct technical assistance from consultants who provide one-on-one guidance in areas such as business planning, licensing, compliance, site development, and financial readiness. Participants also receive prioritized licensing and permitting, expedited application review, fee waivers and deferrals. Together these resources help remove barriers that have historically limited industry access and ensure they have the tools and guidance needed to build a successful cannabis business in Long Beach.

Grant-Funded Initiative Highlights

Long Beach Collaboratory Program

Department: Technology and Innovation
Funder: Long Beach Community Foundation
Project: Long Beach Collaboratory (Co-Lab) Program 2.0
Grant Awarded: $250K

Long Beach Collaboratory (LB Co-Lab) 2.0 empowers residents to co-design technology solutions addressing neighborhood challenges ahead of the 2028 Games. The program pairs City staff with community Innovators-in-Residence through a four-phase methodology (Discover, Define, Develop, and Deliver) to guide the program from initial exploration to final implementation. Three pilot teams tackle distinct challenges which include improving access to city services, securing commercial corridors, and maintaining public spaces. Community members participate throughout validating challenges through ground-truthing research, evaluating proposed pilot projects, and selecting vendors at Demo Day. The selected vendors, which include BeeSpace, Embers & Oak Storyworks, and Orion Labs, will receive $75K in seed funding to launch pilots in March 2026.

Grant-Funded Initiative Highlights

Downtown Walkable Corners

Department: Public Works
Funder: Metro
Grant Name: Metro Active Transport, Transit and First/Last Mile Program – Cycle 2
Project: Downtown Walkable Corners
Grant Awarded: $9.9 million

The Downtown Walkable Corners Project will make streets in Downtown Long Beach safer, more inviting, and easier to navigate for people walking, biking, and using mobility devices, while also supporting local businesses and connecting key destinations. The project will redesign intersections and corners with bulbouts and refuge islands to enhance visibility for pedestrians and cyclists, shorten crossing distances, and reduce vehicle turning speeds, creating a more comfortable experience for everyone. It will also introduce green infrastructure through landscaped areas, or bioswales, that help naturally capture and filter stormwater. Bike lanes will also be upgraded with protective barriers. This effort supports the goals of Safe Streets Long Beach by improving intersections identified in the City's High Injury Network and aligns with the latest state safety standards, including California's AB 413 Daylighting Law.

Grant-Funded Initiative Highlights

Rapid Antiretroviral Therapy Program

Department: Health and Human Services
Funder: California Department of Public Health
Grant Name: Rapid Antiretroviral Therapy (ART) Projects
Project: HIV Care and Coordination (HCC) Clinic RAPID Art Programming
Grant Awarded: $1 million

The purpose of this program is to initiate newly or previously HIV diagnosed people who are not currently on antiretroviral therapy (ART) and start them on ART within 0-7 days. Services also include medication adherence counseling, follow-up and education, methods to improve retention in care and increase viral suppression rates. Additionally, staff strive to educate patients of the importance of being undetectable which means individuals with HIV who maintain an undetectable viral load through consistent ART and cannot sexually transmit the virus to others. The grant enabled the Health and Human Services Department to continue its work to manage and reduce HIV infections during a period of significant cuts to other HIV and STI programming.

Grant-Funded Initiative Highlights

Generative AI Digital Literacy Training

Department: Technology & Innovation
Funder: California Public Utilities Commission (CPUC)
Grant Name: California Advanced Services Fund Broadband Adoption Account
Project: Generative AI Digital Literacy Training
Grant Awarded: $67,787

The Generative AI Digital Literacy Training program is focused on improving data governance and strengthening public trust in the use of smart city technologies. As cities increasingly rely on data-driven systems to address complex urban challenges, residents often lack clear, accessible information about how civic technologies work, why data collection is necessary, and how their personal data are governed, contributing to mistrust and concerns about privacy, surveillance, and accountability. This project addresses these challenges through the development of a Digital Rights Platform, delivered as a mobile app, that educates residents about civic technologies in their environment and the data practices that support them. The app will help users understand what data specific systems collect, how and why those data are used, and what rights and choices they have, including the ability to delete data or opt out of certain data collection practices.

Attachment A - Grant Applications Submitted in FY 2025

The following table is a list of competitive grant applications submitted in FY 25 by Departments that report to the City Manager. Data was extracted from the Grant Application Approval Form database and includes grant applications with a due date between October 1, 2024 and September 30, 2025. The database was accessed on December 31, 2025.

ID	Department	Program Name	Funder	Amount Requested	Grant Awarded?	Amount Awarded
1	Airport	USDOT FAA Airport Infrastructure Grant (AIG) Program	U.S. Department of Transportation (DOT) Federal Aviation Administration (FAA)	$27,127,328	Yes	$ 24,323,696.00
2	City Manager	Cannabis Equity Grants Program for Local Jurisdictions	Governor's Office of Business and Economic Development (GO-Biz)	$800,000	Yes	$ 1,198,263.18
3	Economic Development	#CaliforniansForAll Youth Service Corps Homelessness Pilot	California Volunteers	$500,000	Yes	$ 2,600,000.00
4	Health and Human Services	HIV Care and Coordination	Los Angeles County Department of Public Health	$1,057,000	Yes	$ 2,295,000.00
5	Health and Human Services	Transportation Services for HIV Clinic Clients	County of Los Angeles, Department of Public Health	$20,000	Yes	$ 60,000.00
6	Health and Human Services	GreenlightLB - Distracted Driving	California Office of Traffic Safety	$355,000	Yes	$ 250,000.00
7	Health and Human Services	Walk & Roll Long Beach	California Office of Traffic Safety	$370,000.00	Yes	$ 325,000.00
8	Health and Human Services	GreenlightLB	California Office of Traffic Safety	$365,000.00	Yes	$ 340,000.00
9	Health and Human Services	2025 LAHSA Interim Housing	LAHSA	$8,121,250	Yes	$ 3,930,685.00
10	Health and Human Services	Built for Zero Capacity-Building Case for Investment (CFI)	Community Solutions	$285,125	Yes	$ 285,125.00
11	Health and Human Services	GreenlightLB	California Highway Patrol	450,000	Yes	$ 231,130.93
12	Health and Human Services	Asthma Consortium of Greater Long Beach	Port of Long Beach	$3,000,000	Yes	$ 3,000,000.00
13	Health and Human Services	Rapid Antiretroviral Therapy (ART) Projects	California Department of Public Health	$1,000,000	Yes	$ 1,000,000.00
14	Parks, Recreation, & Marine	Leeway Sailing Center Equipment Update	California State Parks Division of Boating and Waterways	$40,000	Yes	$ 39,796.00
15	Parks, Recreation, & Marine	Surrendered and Abandoned Vessel Exchange (SAVE) Fiscal Year 2025/2026	California State Parks Division of Boating and Waterways	$275,000.00	Yes	$ 50,000.00
16	Police	Alcohol Policing Partership (APP) Program	CA Department of Alcohol Beverage Control	$100,000	Yes	$ 100,000.00
17	Police	Selective Traffic Safety Enforcement Grant 2026	California Office of Traffic Safety	$519,700	Yes	$ 390,000.00
18	Public Works	Beverage Container Recycling City/County Payment Program	California Department of Resources, Recycling & Recovery	$114,316	Yes	$ 114,316.00
19	Public Works	San Gabriel River Trail West Side Improvements Phase 2	San Gabriel & Lower Los Angeles Rivers & Mountains Conservancy (RMC)	$4,993,650	Yes	$ 4,993,650.00
20	Public Works	Drake Chavez Connector	San Gabriel & Lower Los Angeles Rivers & Mountains Conservancy (RMC)	$453,000	Yes	$ 453,000.00
