333 WEST OCEAN BOULEVARD • LONG BEACH, CA 90802 • (562) 570-6711 • FAX (562) 570-7650

February 5, 2014

Dear Resident/Owner,

The purpose of this letter is to **(1) share the results of the Naples Seawalls Cap Design Survey** and **(2) to invite further participation in the design process.**

The survey captured the preferences of property owners and residents of Naples Island, identifying the preferred seawall cap design. The cap will be installed as part of the Naples Island Seawall Repairs Phase One, as well as all future phases of seawall repair. A letter first notifying the Naples community of the survey was mailed and posted online on January 8<sup>th</sup>. A community meeting was held on January 15<sup>th</sup>. Survey results were submitted online, by phone, by mail, and in-person.

**A majority of respondents (72.6%) prefer the cap design described as "Option 1."**

All Respondents			
Option 1	Option 2	Indifferent	Total
72.6%	23.9%	3.5%	100.0%

Option 1 has a guardrail height of 27" and does not include a ledge. The City will move forward with Option 1.

**The Naples community can continue to participate in the design process. The City welcomes input regarding the design of light fixtures, light poles, and benches that will be installed along the canal.** Suggestions may include materials, style, and other design features. The input can be written descriptions or images of benches and lights that you prefer. The City will also take input regarding the location of the seven benches in the Phase One area.

**Input regarding lights and benches must be received by February 19<sup>th</sup>.** Suggestions and ideas should be submitted in writing to the address below or by e-mail to [Rachael.Tanner@longbeach.gov](mailto:Rachael.Tanner@longbeach.gov). If you have further questions, you may reach Rachael Tanner by phone at (562) 570-6190.

Mailing address: Rachael Tanner, City of Long Beach, 333 West Ocean Blvd, 13<sup>th</sup> Floor, Long Beach, CA 90802

Sincerely,

Eric Lopez  
Tidelands CIP Officer
