Practice sessions may be available with the Academy Staff prior to the orientation. For more information on practice sessions, please contact [joinlbpd@longbeach.gov](mailto:joinlbpd@longbeach.gov) .

**NOTE:** Make sure your fitness routine includes high-intensity interval training (HIIT), such as Tabata training. You can find more information on this type of training [HERE](#) .

## **STEP 4: ORAL INTERVIEWS**

Following the orientation presentation, candidates will be scheduled for a Chief's Oral Interview and a Background Assessment Interview (BAI).

The Chief's Oral Interview panel consists of one Long Beach Police Officer and one community member. Several structured questions will be posed to each applicant. The questions are designed to evaluate the applicant's knowledge of relevant topics and assess their communication skills. The better prepared applicant will have a good working knowledge of the City of Long Beach, its rich diversity, the Police Department, and the many events and attractions that make Long Beach great.

The BAI is conducted by Background Investigators. The investigators review the applicant's [Personal History Statement \(PHS\)](#) as well as all other required documents prior to the interview. Applicants are given an opportunity to explain areas of concern and it is expected that applicants will be candid and honest with their investigators during this interview and at all stages of the selection process. All information gathered during the BAI will be checked and verified during other stages of the background investigation. Dishonesty is grounds for immediate disqualification.

***NOTE:*** All applicants are encouraged to order and retain their medical records associated with their current medical conditions and procedures, physical symptoms, limitations, restrictions, and the use of medications and drugs, immediately following their successful completion of this step.

## **STEP 5: PSYCHOLOGICAL/POLYGRAPH SCREENING**

The Long Beach Police Department conducts an extensive and comprehensive background investigation on police recruit applicants beginning with a psychological and polygraph screening process in compliance with the California Commission on Peace Officer Standards and Training (POST). Applicants will take a polygraph and have a fingerprint examination done. The polygraph examiner and background investigation will make inquiries into areas including, but not limited to, illegal activity, recent or prolonged involvement with illegal drugs and other possible unlawful behavior. Candidates will also be required to pass a psychological screening designed specifically for the position of Police Recruit.

## **STEP 6: BACKGROUND INVESTIGATION**

The Long Beach Police Department conducts an extensive and comprehensive background investigation on police recruit applicants in compliance with the California Commission on Peace Officer Standards and Training (POST). In addition to the psychological and polygraph screening, other areas that will be investigated as part of the background investigation include:

- **Personal**: name, aliases, birth date, social security number, tattoos, citizenship, etc. Relatives and acquaintances will be contacted regarding your suitability to be a police officer
- **Education**: high school, college, trade school, and any other sources of diplomas, certificates and degrees, received or in progress, will be verified through sealed official transcripts
- **Residences**: residences for the last 10 years will be verified
- **Employment**: all employment history, including part time and voluntary jobs, will be verified and inquiries will be made with current and past employers and co-workers
- **Military Service**: registration with the Selection Service System will be verified. Military service records will be evaluated, if applicable
- **Financial**: inquiries relative to responsibility, dependability, maturity, and liability as these related to meeting financial obligations will be evaluated. You will be required to submit a sealed Experian® credit profile as part of your required documentation
- **Legal**: criminal inquiries will be made at the local, state, national, and if necessary, international level. Investigation will be made into all possible and actual criminal conduct. Arrests and convictions will be evaluated on a case-by-case basis (a misdemeanor conviction in and of itself is not necessarily a disqualifying factor)
- **Motor Vehicle Operation**: behavior as it relates to driving ability and judgment will be reviewed, as well as verification of required automobile insurance

## **SELECTION STANDARDS**

POST sets the minimum standards for peace officers in California. POST guidelines provide the following five (5) major categories that are considered during the hiring process:

## **STEP 8: MEDICAL SCREENING**

Applicants selected for the academy are required to pass a medical examination, which is in accordance with P.O.S.T. standards. As mentioned in “Step 3: Oral Interviews”, all applicants should have ordered and retained their medical records associated with their current medical conditions and procedures, physical symptoms, limitations, restrictions, and the use of medications and drugs, immediately following their successful completion of the BAI and Chief’s Oral Interview.

*These records are only to be given to the City’s Medical Doctor’s or contracted doctors.*

## **ENTER THE ACADEMY**

### **Training**

The Police Academy is a unique training experience designed to develop those persons seeking a profession in Law Enforcement. The Academy will provide recruits with an environment to learn and develop skills, abilities, and procedures related to police work. The recruit will be asked to perform learned skills under a controlled, simulated, and stressful environment to help replicate situations experienced by police officers. The Police Academy will challenge recruits to their mental, emotional, and physical limits to better prepare them for the demands of police work.

The Police Academy will require recruits to study provided information, complete and pass written examinations, and prepare uniforms and equipment for daily inspections. This can be a time-consuming process. Without a solid support system, a recruit may find it difficult to meet the standard requirements set by the California Police Officer Standards and Training.

### **Academy Expectations**

Law Enforcement officers are entrusted by the community to enforce the law legally, morally, and ethically. Recruits are expected to perform with the highest level of character, integrity, and professionalism. While at the Police Academy, the recruit shall adhere to the following:

- Arrive on the first day in excellent physical condition, ready for rigorous physical activity
- Ability to be “coachable” and work in a team environment
