

## INDEPENDENT TEST VERIFICATION

To: \_\_\_\_\_

From: \_\_\_\_\_

Subject: Gas System Release at \_\_\_\_\_  
(Address)

**In order to safely provide natural gas service to the subject property identified above, Long Beach Energy Resources (LBER) must obtain written verification of applicable code compliant inspection and pressure testing of the gas system by a qualified independent inspector or appropriate controlling agency.**

Please provide written confirmation of your Plumbing Inspection/Gas Piping Release for the subject property. Correspondence **MUST include the following information:**

- **Property address inspected**
- **Name, signature, title and phone number of the individual certifying the gas system as safe, and code compliant on approved company or organizational letterhead**
- **Test medium used (compress air, nitrogen, etc.)**
- **Test pressure and test duration**
- **Test date**

The installation of a gas service/gas meter/gas meter upgrade will be held until the above items, and any other pertinent requirements (all fees establishment of billing account, etc.) have been completed and documentation received by LBER.

Thank you.
