Development Services Fund Group Summary

Purpose:

The Development Services Fund Group is used to finance the planning, permitting, plan check and development services offered by the Development Services Department as well as the continual improvement of services to homeowners and the development community. In FY 13, a new subfund was created to account for multi-family housing inspection program fees, when the program was transferred from the Health Department to Code Enforcement in the Development Services Department. In FY 18, another new subfund was created to account for a state-mandated fee. The fee must be used to train plan checkers and inspectors to integrate solutions for disabled access into new construction and improvement projects.

Assumptions for Major Resources:

The major revenue sources in this fund group are planning and building fees, annual earned interest, reimbursements for project costs incurred, services rendered to other departments, proactive rental housing inspection program fees, and state-mandated Certified Access Specialist fees.

Gas Fund Group Summary

Purpose:

The Gas Fund Group is used to safely provide customers with reliable and cost-competitive natural gas and to provide for infrastructure integrity, pipeline safety and system preservation. With the implementation of the City's new financial system, the Gas Prepay Fund Group has been merged into the Gas Fund Group effective April 2019.

Assumptions for Major Resources:

The major source of revenue for the Gas Fund Group is gas metered sales, which represents approximately 80 percent of the fund group's total revenues. Factors impacting revenue would include commodity price of natural gas and weather fluctuations and include global issues, local gas supply, and consumer usage. FY 22 and FY 23 projections based on data available mid-year 2022.

*Sufficient budgetary funds available and revenues are able to cover Gas Fund uses, and any necessary updates to the fund will be evaluated for future adjustments.

**The City is currently maintaining two different financial systems and until a new budget development software is established, the financial information displayed in the future may have further adjustments to the budgetary funds available.

Gas Prepay Fund Group Summary

Purpose:

The Gas Prepay Fund Group is used to provide a long-term, reliable supply of natural gas for resale to customers. This gas is purchased at market prices and then discounted by a fixed amount due to the prepayment for this gas supply through the Long Beach Financing Authority. The discount value is retained by the Gas Fund Group to provide a long-term partial funding source for the Energy Resources Department's ongoing pipeline infrastructure replacement program. With the implementation of the City's new financial system, the Gas Prepay Fund Group has been merged into the Gas Fund Group effective April 2019.

Assumptions for Major Resources:

The activities within the Gas Prepay Fund Group are controlled by the dictates of the debt service requirements.

Water Fund Group Summary

Purpose:

The Water Fund Group is used to meet the water needs of the citizens of Long Beach with a dependable supply of high quality water at a reasonable cost.

Assumptions for Major Resources:

The major sources of revenue include a volumetric charge for water used by customers and a daily service charge for water based on the size of the customer's water meter service line. Other revenues include rents received from tenants on Water Department-owned property, interest income and grant funding for specific capital projects and charges for services requested by customers.

Sewer Fund Group Summary

Purpose:

The Sewer Fund Group is used to maintain and upgrade the City's sanitary sewer system in a cost effective manner.

Assumptions for Major Resources:

The major sources of revenue include a volumetric charge based on water usage which will enter the sewer system, a service charge based on the size of the customer's meter, and sewer capacity fees from developers for new projects.

Airport Fund Group Summary

Purpose:

The Airport Fund Group is used to provide the highest level of customer service; maintain the highest level of safety and security; improve the quality of life in the surrounding community; provide a fair and reasonable operating cost to our business partners; enhance the value and economic impact of the Airport to its stake-holders, which includes the community; and maintain an efficient and effective business model.

Assumptions for Major Resources:

Airport Fund Group operating revenue is derived from airline fees, parking, concessions, and long-term ground leases of airport property. These major revenue sources are categorized as airline revenue, indirect airline revenue, and non-airline revenue. Additionally, grant funds, such as Airport Improvement Program (AIP) funds, are received from the federal government. Other revenues include Passenger Facility Charges (PFC) that are collected by the air carriers and Customer Facility Charges (CFC) that are collected by car rental agencies.

Refuse/Recycling Fund Group Summary

Purpose:

The Refuse/Recycling Fund Group provides for refuse and recycling collection for residents and businesses of Long Beach in a timely and cost effective manner, ensuring compliance with the State's solid waste diversion laws.

Assumptions for Major Resources:

The Refuse/Recycling Fund receives approximately 95 percent of its total revenues from refuse and recycling charges assessed to residents and businesses receiving City collection services. The remaining funds come from State grants for various programs and public outreach efforts (recycling, litter reduction, used motor oil collection, etc.), revenues from the sale of recyclables collected through the City's residential recycling program, fees paid by the City's licensed private refuse haulers for AB 939 compliance, and interest income. Over \$4 million is provided annually to the General Fund to reimburse for programs such as street maintenance, tree trimming, stormwater, and environmental compliance.

Over the past two years, the amount of refuse tonnage collected has increased; so too have the costs associated with collection and disposal. These factors have contributed to expenditures continuing to outpace revenues. In order to comply with State-mandated organics collection, SB 1383, Public Works has implemented a commercial organics pilot program. The pilot program was implemented in June 2021 and services over 130 commercial accounts on a weekly basis. Public Works will expand the commercial organics collection program with full implementation set to begin in the first quarter of calendar year 2023.

*The City is currently maintaining two different financial systems and until a new budget development software is established, the financial information displayed in the future may have further adjustments to the budgetary funds available.

**Note: FY 23 revenue includes an assumption of significant additional revenue to be generated from a Rate Study and subsequent rate increases. Revenue projections may need to be updated after actual rate implementation.

SERRF Fund Group Summary

Purpose:

The SERRF Fund Group is used to maintain the Waste-to-Energy Program as an enterprise operation, provide disposal services at the Southeast Resource Recovery Facility (SERRF) for residential and commercial refuse delivered by the City and various surrounding communities, provide for the continued operation and maintenance of SERRF, and to implement waste reduction and recycling activities.

Assumptions for Major Resources:

The two main sources of revenue for the SERRF Fund Group are sale of electricity produced by SERRF, which accounts for 20 percent of the total revenue, and customer disposal fees, which makes up 80 percent.

SERRF JPA Fund Group Summary

Purpose:

The Southeast Resource Recovery Facility (SERRF) Joint Powers Authority (JPA) Fund Group is used to account for bonds issued to finance the planning, design, procurement, construction and startup of the SERRF Facility. The SERRF bonds were paid off in December 2018. A one-dollar annual lease payment began in calendar year 2019. The Facility is a “waste-to-energy” plant.

Assumptions for Major Resources:

SERRF operations to meet the authorities operating expenses.

Towing Fund Group Summary

Purpose:

The Towing Fund Group is used to account for the City's towing and lien sale services. Towing services are used primarily by the Police and Public Works Departments to remove vehicles from the City's streets that have been abandoned, parked illegally, involved in traffic accidents, or have excessive outstanding parking tickets.

Assumptions for Major Resources:

Funds are collected through fees charged for towing, storage and lien sale services. Registered owners may pick up their vehicles after all towing fees and ticket charges have been paid. When registered owners do not respond to the notice to retrieve their vehicles from impound, the City is granted by California Civil Code the right to sell the vehicles in order to collect the fees that are owed.

Harbor Fund Group Summary

Purpose:

The Harbor Fund Group is used to account for the operations of the Harbor Department. Governed by the five-member Board of Harbor Commissioners, the Harbor Department pursues operational excellence through development and management of the Port of Long Beach to provide for the reliable, efficient and sustainable movement of goods to benefit our local and global economies.

Assumptions for Major Resources:

The Board of Harbor Commissioners sets tariff charges for wharfage, dockage, pilotage, land usage, storage and demurrage applicable to all ships and cargo at municipal berths and wharves or otherwise City-owned property in the Harbor District. Under the terms of various property agreements, the terminal operators, as permittees or lessees, are responsible for collecting tariffs and for remitting to the Department all or any portion of such tariffs required to be paid to the Department. The Department charges tariffs on a per container and on a per ton or unit cargo basis for bulk and break-bulk cargoes.
