The City signs the grant agreement for the awarded projects and receives funding directly from HUD for distribution to the project sponsor. The contractual responsibility encompasses oversight of each of the project sponsors. This includes compliance with the grant agreement and HUD regulations, sound financial record keeping, reporting, etc. The Long Beach CoC was one of the first two CoC’s to be designated as a Unified Funding Agency which speaks to the unique structure and capacity of the City of Long Beach to support the fiscal and administrative needs of federal funding not only for its own operations but supporting other subrecipients of CoC funding. Currently DHHS administers \$11 million in federal funding annually and through the COVID-19 pandemic administered over \$30 million in 1-time federal funding to address homelessness. The City of Long Beach Housing Authority is also another bureau within DHHS administering vital federal rental assistance program.

2. Describe your organization’s (and subrecipient(s) if applicable) experience in leveraging Federal, State, local and private sector funds.

In administering funding to address homelessness DHHS is consistently utilizing multiple sources leveraged together to create programs and systems. This includes leveraging other federally funded programs and resources as well as funding from the State of California, County of Los Angeles, City of Long Beach, and private philanthropy to provide services in the Long Beach CoC. DHHS administers and directly operates over \$50 million annually from over 10 different funding sources. The DHHS is consistently monitoring and identifying opportunities to leverage outside programs as well as bringing in additional resources for matching resources such as utilizing housing authority rental assistance and healthcare funds. The City of Long Beach CoC encourages leveraging for all its HUD-funded projects which increase the capacity of the CoC.

3. Describe your organization’s (and subrecipient(s) if applicable) financial management structure.

As the UFA for the CoC and the Collaborative Applicant, the City of Long Beach DHHS has an Administrative and Operations Bureau that manages all finance related aspects of the dept. This includes budgeting and accounting oversight, in addition to business operations and invoicing procedures. This Department employs a Bureau Manager, Financial Services Officer, and a Grants and Contracts Management Officer. Together, these positions supervise employees that direct all accounting and grant management functions across the dept. The Homeless Services Bureau also has an administrative division consisting of 17 full-time employees that are dedicated to effectively administering grants, including the financial management components of these grants, while ensuring grantor compliance and the correct implementation of accounting-based principles stipulated in 2 CFR Part 200, Cost Principles, and Audit Requirements for Federal Awards. Further, the City of Long Beach has its own Department of Financial Management to guarantee overall financial integrity and compliance with federal, state, and local funders. Lastly, these practices are institutionalized across the organization through written policies and procedures that guide the City’s financial management operations.

The City of Long Beach has a multiple step financial process to ensure compliance and ensure that sound accounting principles are being followed throughout the administrative process including utilization of the HUD standard of ensuring that all costs meet the RADAR principle: Reasonable, Allowable, Documented and Allocable and that they are reimbursable within the grant. For directly administered financial assistance and expenditures DHHS has an internal review process that goes through multiple layers for management review and approval before expenditures are made and then are reviewed through two levels of financial review outside of the bureau that is administering the financial assistance. Once approved the City of Long Beach then draws down reimbursement from the funder.

For subrecipients DHHS requires subrecipients to submit supporting documentation which is reviewed to ensure that all costs meet the reimbursement standards and working with the subrecipient to make any needed changes. Once approved from first review there are two additional management reviews for approval to ensure that there are no further issues. Once approved the City of Long Beach then draws down reimbursement from the funder and issues payment to the subrecipient organization.

3B. Project Description

1. Provide a description that addresses the entire scope of the proposed project.

Keys to Health is a 140 bed/unit scattered site PSH project for individuals experiencing chronic homelessness. The project will provide holistic support to help participants in addressing their health, mental health and substance use needs and working towards goals to integrate in the community.

The project is a partnership between the Long Beach Continuum of Care, City of Long Beach Housing Authority, and the LA County Department of Health Services to bring together resources for rental assistance and supportive services. Participants in the program will receive rental assistance either directly from the program or will be linked with the housing authority and will utilize Housing Choice Vouchers for the rental assistance portion of the program.

HCVs will be provided for 100 households. All participants will receive supportive services that are field based and focused on supporting people with a wide range of needs. The project will cover the rental assistance for an additional 40 households which will be accomplished with utilizing

Each participant will be supported in creating individual service plans, locating housing, support with leasing up, landlord negotiation, connection to public benefits, establish income, budgeting, linkages to physical and mental health services as needed, developing life skills that will support them in being successful in retaining housing and other flexible services that may be needed in assisting people with maintaining housing and integrating with the community. All services and supports will be administered utilizing a Housing First approach meaning that there are no preconditions and participants will be free to identify which available services they are and are not interested in.

The project will measure its effectiveness through the following measures: 1) Number of persons served; 2) % of participants who move into permanent housing; 3) % of participants exiting to permanent housing destinations; 4) % of people who are maintaining or increasing disability income; 5) % of people who increase income from employment; 6) Average length of time from program enrollment to move-in; 7) That enrollments and outcomes are reflective of equity goals for who is experiencing homelessness in the CoC; 8) Cost effectiveness; 9) Retention rate

1a. Describe how the proposed project is consistent with the plan described by the CoC in response to Section VII.B.4 of this NOFA?

The Proposed project is consistent with the CoC action plan to address unsheltered homelessness as it works to provide housing to people who have experienced chronic homelessness either supporting people in moving from unsheltered homelessness directly into housing or from shelter to housing, which will open a bed for another person that is experiencing unsheltered homelessness.

The CoC plan also identified the goal of increasing connection of utilizing healthcare dollars for services and leveraging rental assistance through housing authority commitment. Keys to Health is possible through the commitment from both areas with all supportive services coming through leverage and utilizing Medicaid funds and over two-thirds of the rental assistance being through Housing Choice Vouchers. This approach also creates a roadmap and test for how tenant based rental assistance supportive housing could be further scaled within the CoC. There is potential that with additional commitment from the housing authority in the second and third year for this project along with being able increase services through Medicaid insurance that the number of units could be increased beyond the 140 in the project.

4A. Supportive Services for Participants

1. Describe how program participants will be assisted to obtain and remain in permanent housing.

Participants within the Keys to Health project will be identified through the Long Beach Coordinated Entry System. Once participants have been matched to the project they will be assigned to a case manager who will support the participant in completing an intake and completing a housing plan. The project will immediately engage the participant within the housing location project, regardless of whether they will be receiving rental assistance through the project or a Housing Choice Voucher, as the project is aligned with the Long Beach Housing Authority to have transition in place if someone moves in quickly and then needs to move over to an HCV voucher assistance. For those that are linked to an HCV voucher in the assistance process they will be assisted in completing the housing authority application. Participants will be offered support in locating housing through assistance in search and having flexible funds that can assist people in move-in costs where needed. The project will also work closely with the Mental Health of America Project Doorway project if funded. Participants once they have identified housing will be assisted in ensuring that they have what is needed to move-in and have a place that feels like home, this includes supporting people with assistance in getting furnishings and other needed home items. Once settled case management staff will update housing plans with participants to identify goals that will support the household in being able to successfully maintain housing. A part of this for all households will be going over expectations as a tenant and how to resolve and address issues as they arise as part of their lease agreement. Case management will early on focus on ensuring people have the needed skills to live within their apartment and will then shift to longer term goals around health, income, and community integration. The approach will be to focus on one to two goals at a time. The approach of the program will pull from many of the tenants of Critical Time Intervention with phased work and focus areas however will not be time limited to 9 to 12 months like CTI. Households will be supported as things arise in working to create skills where possible for people to address and problem solve on their own and for case management to support with modeling and mediation when needed.

2. Describe the specific plan to coordinate and integrate with other mainstream health, social services, and employment programs for which program participants may be eligible.

The project will work to ensure that it is integrating with other mainstream services through the work that is being done. One area that is highlighted within the project is ensuring that people are linking into our physical and mental health care systems locally and even utilizing healthcare funding to pay for the case management related services. A part of people’s housing plans will be a health review and ensuring that people are being linked and supported with access and having healthcare coordination and advocacy as a part of the services being provided. The CoC has developed key partners to streamline and ensure people have access.

All participants will have an assessment around current income and ability to increase income whether supporting people with applying for additional cash and non-cash benefit assistance to support with long term sustainability. For participants that are interested in pursuing employment the program will provide direct linkage to programs for both job coaching as well as supported employment for those that may need a higher level of support in getting back into the employment market.

Participants will receive a holistic screening to identify a number of different domain areas again aligned with a CTI approach to identify areas that would most benefit them and could potential impact their ability to maintain housing and provided referrals to agencies and partners within the City of Long Beach that have expertise and services to address a wide range of needs.
