

FOOD PREPERATION TEMPORARY HAND WASHING STATION

A temporary hand washing station shall consist of at least a 5-gallon insulated container with hands free spigot that provides a continuous flow of warm potable water minimum of (100 F), liquid soap in a pump dispenser, single use paper towels and a 5-gallon bucket to collect the dirty water.

This hand-wash station must be setup prior to preparing and handling food/food samples and is required at each food preparation, open food sampling, and beer/spirits booth.
