The City of Long Beach identifies a condition and its underlying causes, then invests in improving the outcomes stemming from the condition through community action. The City's investments are:

- Community Driven
- Data Informed
- Equity Focused
- Community Centered
- Intentional
- Research Informed

And result in improved:

- Health and Mental Health Access
- Education
- Workforce Opportunities
- Peace
- Income
- Social Cohesion
- Community Organizational Capacity
Health Equity is about empowering neighborhoods, partnering with community members and investing in community-based organizations to improve the vibrancy and well-being of our community and reduce disparities in access and outcomes.
