Fire Services Questionnaire – Long Beach Fire Department

- c. What was the average response time (if available) for the first-in response unit for the latest year for which data is available?

The Fire Department's average response time is 6 minutes and 43 seconds, under the national average response time of 7 minutes in urban areas.

Funding

- d. Please describe the funding sources/mechanisms (e.g., City development impacts fees, secured fire protection agreements, City general funds) that are used to provide fire protection services to the City?

The City's general fund finances fire and medical services for the City.

2. Are there any existing deficiencies (personnel, equipment) in the fire protection service currently provided to the Plan Area?

There are no deficiencies in the fire protection service currently provided to the Plan Area.

3. Please summarize any plans for fire service improvements or expanded capacity (personnel, equipment), if any, that would be needed to serve the Plan Area.

There are no plans for improvements or expansion, at this time.

- a. What are the funding sources for the planned improvements?

N/A

Fire Services Questionnaire – Long Beach Fire Department

4. Will the Long Beach Fire Department be able to serve any known cumulative development projects in addition to the Specific Plan?

Yes. The Fire Department is fundamentally required to meet the needs of the community. This project as well as any other project, will negatively impact call volume and response times. Emergency and non-emergency services are affected.

- a. Please summarize any additional resources (stations, equipment, personnel) needed.

- b. What factors or standards are used to project these needs?

5. Would the Specific Plan affect Long Beach Fire Department's ability to provide adequate services? Please comment on any area of specific concern.

The project will create additional responsibilities for the service (both emergency and non-emergency). The project will impact the call volume which in turn impacts response and times. Additionally, the non-emergency services by the Fire Department (inspections, plan check, community relations, etc...) will be impacted.

The Fire Department is fundamentally required to meet the needs of the community. This project will be consistent with every other planned development citywide and will require all departments to do more with less resources.

6. Please provide any additional comments and/or information regarding fire service provision in the Plan Area related to the Specific Plan.

None.

Funding

- d. Please describe the funding sources/mechanisms (e.g., city development impacts fees, city general funds) that are used to provide police protection services to the City?

Funding for LBPD operations and maintenance comes primarily from the following sources:

- City of Long Beach General Fund,
- Tidelands operation revenue (permit fees and rents from various waterfront concessions; Convention Center and Hyatt leases; The Aquarium of the Pacific; Queen Mary rent; and parking revenue from beach lots), and
- A percentage of LBPD funds comes from the Proposition H special production tax on oil producers mentioned above. Other revenue sources include various state and federal grants.

2. Are there any existing deficiencies (staff, equipment) in the police protection currently provided to the Plan Area?

There are currently no staffing or equipment deficiencies in the area currently provided in the proposed Plan Area. Long Beach PD West Division (1835 Santa Fe Avenue) is currently responsible for providing police services to that area. The West Division is divided into five patrol beats, with the Plan Area being located in Beat 2

3. Please summarize any plans for police service improvements or expanded capacity (personnel, equipment), if any, that would be needed to serve the Plan Area.

There are no construction plans or significant renovations scheduled to add to the LBPD's existing resources in the West Division.

- a. What are the funding sources for the planned improvements?

Not applicable

4. Will the Long Beach Police Department be able to serve any known cumulative development projects in addition to the Specific Plan?

There are currently no large scale developmental plans that would impact the police departments ability to provide services.

- a. Please summarize any additional resources (stations, equipment, personnel) needed.

None

- b. What factors or standards are used to project these needs?

N/A

5. Would the Specific Plan affect Long Beach Police Department's ability to provide adequate services? Please comment on any area of specific concern.

The increased number of dwellings and residents will result in an increase in calls for service; however, this increase would not adversely impact LBPD's existing resources. If calls for service exceed the capacity of the West Divisions existing resources, additional staffing would be requested.

6. Please provide any additional comments and/or information regarding police service provision in the Plan Area related to the Specific Plan.

None
