FAQs for COVID-19 Testing at Long Beach Airport (LGB)

Am I required to present a negative COVID-19 test when departing from LGB?

LGB does not require a negative COVID-19 test, but it is important to review any health orders that may be in place at your destination. For example, travelers to Hawaii can bypass the quarantine by providing proof of vaccination or proof of a negative COVID-19 test, within certain parameters. Review the State of Hawaii's proof of vaccination and testing requirements at <https://hawaiicovid19.com/travel/travel-overview/>

What COVID-19 testing options are available at LGB?

Two drive-thru testing options are available at LGB:

Worksite Labs offers COVID-19 testing to passengers traveling both internationally and domestically. They are a Trusted Testing Partner for the State of Hawaii and provide a variety of gold-standard PCR testing options including Rapid (1.5-hour results, \$250), Express (12-hour results, \$150) and Standard (24-hour results, \$90). To book an appointment, visit: www.worksitelabs.com/scheduling

CityHealth, in collaboration with Southwest Airlines, is open to any ticketed LGB passenger, as well as employees of Long Beach Airport (including tenants located on Airport property), and Southwest passengers departing from any airport. CityHealth is a Trusted Testing Partner for the State of Hawaii and offer Rapid Molecular tests, with results in six hours. The test costs \$20 for anyone with health insurance OR a US-issued identification card. If the patient has neither, the cost is \$220 covidtesting.cityhealthuc.com/locations/long-beach

Are appointments required? How do I schedule an appointment?

Yes, appointments are required. Book an appointment with Worksite Labs at www.worksitelabs.com/scheduling. For CityHealth, book an appointment at www.cityhealthuc.com/lgb.

What are the days and hours for testing?

Worksite Labs offers appointments from 6 a.m. until 2 p.m.

CityHeath offers appointments from 8:30 a.m. until 4:30 p.m.

If I have multiple people in the car, can we book one appointment or do we need book separate appointments for each member of the party?

Worksite Labs: Individuals who are 18 years or above have to create their own account and schedule their own appointment. Adults with accompanying minors need only one appointment. Having multiple people in your vehicle is fine, regardless of how you scheduled your appointment.

CityHealth: Each individual will need to create their own account and schedule their own appointment. Multiple people in a vehicle is fine.

Does LGB offer the Hawaii Pre-Clear program that allows travelers to bypass long waits upon their arrival in Hawaii?

Safe Travels update: *Starting March 26, 2022, domestic travelers will not be required by the State of Hawaii to show proof of a negative COVID-19 test or vaccination when traveling to the Hawaiian Islands, nor will they need to create a Safe Travels account. For more information on these updates, [click here](#).*

Yes, both Hawaiian Airlines and Southwest Airlines offer this service at LGB. Sign up prior to your departure [here](#) for Hawaiian Airlines and [here](#) for Southwest Airlines.

The best source of information about the State of Hawaii's Travel Requirements is the travel.hawaii.gov, which will guide you through the account creation process so that you can upload the necessary travel documentation.

Worksite Labs also has a help center to answer questions:

<https://support.worksitelabs.com/hc/en-us> or (213) 948-2461.

You may also contact your airline in advance of your departure if you have additional questions that are not answered here.

Are there any travel restrictions in place when I arrive in Long Beach? My airline said I might be subject to quarantine when I land at LGB.

California has no travel restrictions or requirements at this time. Whether your travel is domestic or international, follow [CDC travel guidelines](https://www.cdc.gov/travel) for testing, masking, and quarantine
