Airport Operations and Noise Abatement Procedures for Flying Friendly

The Airport Noise Compatibility Ordinance makes Long Beach Airport one of the strongest noise-controlled airports in the world.

**Departure:**
- Single engine - climb best rate
- Twin engine - climb blue line

**Arrival:**
- Avoid flying long, low, high power, high RPM approaches
- Approach on or above the glide slope/VASI/PAPI

**Pattern:**
- Pattern altitude for piston aircraft is 1,000 ft. MSL
- Pattern altitude for larger or turbine-powered aircraft is 1,500 ft. MSL

**Noise Limits**

**Noise Abatement and Curfews**

- The only available runway between the hours of 10:00 p.m. and 7:00 a.m. is Runway 12/30 unless notified per NOTAM or ATC (check ATIS).
- Training Operations: No touch-and-go, stop-and-go, practice low approach, or VFR practice missed approach shall be conducted at the Airport except between 7:00 a.m. and 7:00 p.m. on weekdays, and between 8:00 a.m. and 3:00 p.m. on weekends and holidays.
- Engine Run-ups: For purposes other than preflight, run-ups shall be permitted only between the hours of 7:00 a.m. and 9:00 p.m. on weekdays, and 9:00 a.m. and 9:00 p.m. on weekends and holidays, at locations approved by the airport manager.
- Engine Takeoff: No intersection departures are permitted between the hours of 10:00 p.m. and 7:00 a.m.
- Scheduled Charter Operations: are permitted between the hours of 10:00 p.m.

**Noise Testing:**
- Testing is available to aircraft operators to identify the quietest arrival and departure procedures for their aircraft and runway preference
- Aircraft are exempt during approved testing
- 48-hour advance notice is required to request a noise test
- Call (562) 570-2635 to set up a noise test or for more information

Please Fly Quietly and help maintain the quality of life in surrounding communities.
