Remain calm, follow instructions, and keep your hands visible at all times.

Mindset is Key! How will you will respond? If you have to think, you’re too late. Here a few things to consider during an active shooter situation.

**Three Concepts to Survival**

**Run**

**Hide**

**Fight**

**Top Things to Tell Dispatchers/First Responders**

- Location of the shooter
- Number of shooter(s)
- Physical description of the shooter(s) including their name if known
- Number of weapons and type
- If possible, leave the line open to let the dispatcher listen

**What to Do When LBPD Arrives**

Remain calm, follow instructions, and keep your hands visible at all times. Remember, LBPD’s priority is to stop the violence. If an officer passes you initially to help stop the threat, know that additional help is on the way.

**Have A Plan**

Develop an Emergency Action Plan for your facility. Visit the Department of Homeland Security’s website to access an Active Shooter Emergency Action Plan template and other resources can be located at the following link: https://www.dhs.gov/cisa/private-citizen
