Announcing the Adoption of an LGB Resolution

The Long Beach City Council has adopted a resolution to support the health and well-being of the LGB community. The resolution was introduced by City Councilmember Robert Garcia, who said, "COVID-19 has affected us all in ways we never imagined, but LGB residents have been disproportionately impacted. We must continue to prioritize the health and support of our LGB community, especially during these challenging times." City Councilmember Cynthia Guidry echoed Garcia's sentiments, "This resolution is a step towards ensuring that the unique needs of our LGB community are being addressed in the face of the pandemic."

Key provisions of the resolution include:

- Encouraging residents to continue following COVID-19 safety guidelines
- Ensuring equitable access to vaccines for LGB residents
- Providing additional support and resources for LGB residents during the pandemic

"We must do everything we can to support our LGB community during this crisis," added Mayor Robert Garcia. "This resolution is a strong step towards ensuring that our LGB residents are not left behind in the fight against COVID-19."
