Press Release

City of Long Beach

Robert Garcia has announced the availability of the Pfizer and Moderna COVID-19 vaccines, with over 300,000 doses expected to be delivered by the end of December.

Mayor Robert Garcia said, "We are excited to offer the Pfizer and Moderna vaccines to our community. These vaccines are safe and effective and will help us bring an end to the pandemic." He also thanked Admiral Kidd, MacArthur, and Houghton for their role in the vaccine distribution.

The city of Long Beach has received over 300,000 doses of the Pfizer and Moderna vaccines, which will be distributed to community centers and vaccination sites. The city is working with local partners, including hospitals and community organizations, to ensure that everyone who wants to get vaccinated can do so.

The city of Long Beach is also working with local schools to provide vaccinations for students and their families. The city is also providing transportation to vaccination sites for those who need it.

Mayor Garcia said, "We want to make sure that everyone has access to the vaccines. We are working with local partners to ensure that everyone who wants to get vaccinated can do so. We are also working to ensure that we have enough vaccines to meet the demand."
