Per [LPMC 15.34.030.B. 1.b.vi](#) Aesthetic Impacts, all wireless telecommunication facilities shall be designed and located to eliminate or substantially reduce their visual and aesthetic impacts upon the surrounding public rights-of-way and public vantage points. To accomplish this goal, all wireless telecommunication equipment shall be developed with the intent of locating and designing such facilities in the order of preference (from top to bottom) as outlined below. In instances where a facility is proposed at a location, or in a manner, that is not the highest preference (top of list), the applicant shall make a factual showing that ALL higher preferences are infeasible. Attach additional sheets as necessary.

If applying for more than one facility on a single permit, the antenna, equipment AND site preferences shall be the same for each location. If they are not the same, a separate application is required.

ALL higher preferences not selected MUST contain a factual statement about infeasibility.

Antenna Preferences (check the box of the preference being used)	
i. <input type="checkbox"/> Existing streetlight pole (No infeasibility statement required if this option is selected)	
ii. <input type="checkbox"/> Replacement streetlight pole	
iii. <input type="checkbox"/> Existing structure other than a streetlight pole or utility pole	
iv. <input type="checkbox"/> New structure other than a streetlight pole or utility pole (e.g., wireless kiosk)	
v. <input type="checkbox"/> Existing non-wood utility pole	
vi. <input type="checkbox"/> New non-wood utility pole	
vii. <input type="checkbox"/> Existing wood utility pole	

Equipment preferences (check the box of the preference being used)	
i. <input type="checkbox"/> Bundled in an all-in-one equipment cabinet with the antenna (No infeasibility statement required if this option is selected)	
ii. <input type="checkbox"/> Below-grade equipment vault, or on a streetlight or utility pole that does not place new cabinets or other above ground furniture, and the power supply equipment is underground	
iii. <input type="checkbox"/> Attached to existing power source in an existing utility box;	
iv. <input type="checkbox"/> Enclosed at the base of the pole on which the antenna is proposed for installation	
v. <input type="checkbox"/> In an existing ground-mounted (grade-level) equipment cabinet, with no expansion or additional cabinets to be added	
vi. <input type="checkbox"/> Within a new equipment enclosure 26 mounted at grade	

Site Location Preferences (check the box of the preference being used)	
i. <input type="checkbox"/> Not in a center median, not requiring removal of parkway trees or landscaping, and not requiring modifications or relocation of existing infrastructure	
ii. <input type="checkbox"/> Requires minor alteration to the existing public improvements and/or infrastructure (i.e. reduction of landscape area)	
iii. <input type="checkbox"/> Requires significant alteration to the existing public improvements and/or infrastructure (i.e. removal of a street tree or relocation of infrastructure)
