

City of Long Beach Civic Center

411 W. Ocean Blvd.

PROJECT SUMMARY

The Civic Center project will create a seismically safe building for employees and visitors. The design will have an open floorplan, and floor to ceiling windows to allow in natural light. In addition, there will be a public plaza area, which can encourage growth to downtown.

Community Benefits:

- Improves visitor experience and public safety.
- Improves energy efficiency, and ADA accessibility.
