About LB Recovery

On March 16, 2021, the City Council approved the Long Beach Recovery Act, becoming one of the first major cities to approve a COVID-19 recovery program utilizing federal American Rescue Plan Act (ARPA) funds. The Long Beach Recovery Act funds a number of major economic, public health, and fiscal programs for Long Beach residents, business owners and workers critically impacted by the pandemic. Together, these initiatives invest in a healthy and economically vibrant Long Beach.

COMMUNITY LEARNING HUBS

"I love coming to the learning hub because the staff help us finish our homework and I like that the staff plans activities for us like trivia and dancing."

- Program Participant

"Being a full-time worker, frontline, it has been extremely convenient to have come across the HUB program! I'm a single mother, and it's so difficult to find a program that is 100% FREE and all about the children...This state of emergency has almost swallowed me whole, but with the help of the men and women that are silently helping, such as those I've experienced from this program, I am calling them my heroes of 2020-2021!"

- Parent of Program Participant

"This park has helped me and my family with their programs and activities. My son enjoys going to the after-school program. I trust the staff. They are attentive and compassionate and very well informative with upcoming events. My son also wants to say thank you to all counselors that spend time playing and making activities fun."

EXPLORING CAREERS IN SPACE BEACH

"I've almost fully confirmed that I want to go into the aerospace industry."

- Program Participant

"I thought my grades were really hopeless and I'd fail to do what I wanted to do but now I think that I can accomplish what I want to."

- Program Participant
