Pitch Long Beach! Webinar

Join our upcoming Pitch Long Beach! webinar!

Have you struggled to identify the right contacts or have you spent hours demonstrating the value of your product to numerous shareholders only to receive little feedback about next steps in the procurement process?

The Long Beach Technology and Innovation Department is inviting all vendors to learn about Pitch Long Beach! on **Tuesday October 18th at 1pm PST**. In this virtual webinar City staff will walk you through the process and advantages of submitting a proposal through this procurement program.

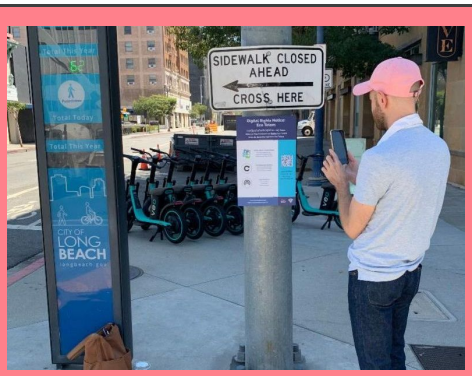
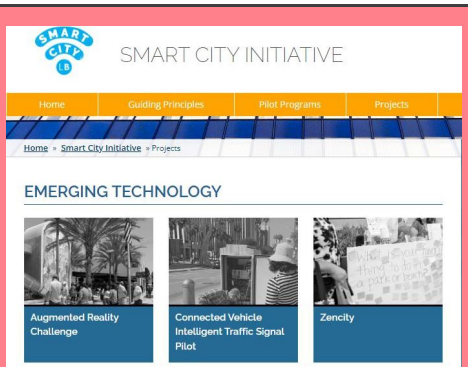
Long Beach Public Works Partners with Transnomis Solutions!

Partnership Spotlight!

During the 2021 Smart City Challenge, the Department of Public Works participated in the challenge to seek a public-facing, map-based, automated solution to publicize private construction activity occurring in the public right-of-way.

Through guidance of the Smart City Initiative team, Public Works partnered with Transnomis Solutions, a Canadian-based company specializing in intelligent transportation solutions. After four months working on the pilot program, Public Works is ready to launch the online user-friendly map-based solution and will be soliciting feedback from City staff and residents. Stay tuned for results!





Digital Rights Platform!

Our two summer fellows, Shannon Lin & Asher Lipman, would like to invite you to read their newest blog post showcasing their work on the City's first version of a Digital Rights Platform!

Click here to learn more about their work and accomplishments at the City!

Check out our New Projects Page!

We welcome you to explore our newly redeveloped Smart Cities Project page!

Head over to catch up on the new and exciting projects that are happening at the City!

The Smart City Challenge is Back!

Now entering its fourth year, the Long Beach Smart City Challenge enables City Departments to collaborate with technology companies to address civic problems to increase our capacity for service delivery to residents.

This program invites staff from all City Departments to identify opportunities to collaborate with technology companies for a period of up to six months to pilot emerging products and services.

Learn more about the new 2022 Smart City Challenge here!

AWS Cloud Training Info Session

Sign up for an AWS Cloud Info Training Session!

Laserfiche is giving back to the community by teaming up with Amazon Web Services (AWS) and the City of Long Beach to provide complimentary AWS Cloud Practitioner Essentials training (1 day) and Architecting on AWS training (3 days) to promote career growth in technology.

This training is offered as part of the City of Long Beach Technology & Innovation Department to connect with community partners to provide job training and upskilling that prepares individuals for industry-leading certifications.

Join Laserfiche on **Sept. 27, 2022 at 3 p.m. PDT** via Zoom for more information on the program, audience, and how you can help promote the program to your constituents.
